Introduction

Under the Workforce Innovation and Opportunity Act (WIOA) §108 (20 Code of Federal Regulations §679.500–580), each Local Workforce Development Board (Board) is required to develop and submit to the state a comprehensive four-year plan (Board Plan) that identifies and describes policies and procedures as well as local activities that are in line with the State Plan. This Board Plan must be developed openly and be available to the public for comment for at least 15 days, but no more than 30 days, particularly to members of the business and educational communities as well as various other labor organizations. Along with submission of the Board Plan to the Texas Workforce Commission (TWC), the Board must submit all public comments of disagreement with the plan to TWC.

At the end of the first two-year period, the Board reviewed the local plan according to Workforce Development Letter 18-22 dated September 21, 2022. Updates and modifications to reflect changes in the labor market and economic conditions are highlighted herein including any other factors affecting the implementation of the plan, and/or the need to revise strategies to meet local performance goals.

Afterwards, the Texas Workforce Investment Council (TWIC) is charged under Texas Government Code §§2308.101(5), 2308.302(a), and 2308.304(a)(b)(4) and the Workforce Innovation and Opportunity Act of 2014 (WIOA) (Public Law 113–128) with recommending the plans and subsequent updates to the Governor for final approval. TWIC reviews each Board Plan to ensure that local goals and objectives (including any updates) are consistent with the statewide goals and objectives in the system strategic plan, *The Texas Workforce System Strategic Plan FY 2016–FY 2023 (and any subsequent updates)*.

After the mandated public comment period, a summary of Boards’ responses and strategies is provided to TWIC as part of their review and consideration process. Once alignment is confirmed, the plans are submitted to the Governor’s Office for final approval.

The Board’s current 2021 – 2024 Strategic and Operational Plan was reviewed by the Board’s Policy and Planning Committee and Board of Directors on March 29, 2021. The Strategic Plan 2-Year Modification was reviewed by the Board’s Policy and Planning Committee on January 26, 2023, and presented to the Board of Directors on the same date. The document was posted for a minimum 30-day public comment as detailed under the appropriate section herein.

The previous “Table of Contents” indicates the questions and required content that each Board is mandated to respond to and include in their Strategic Plan, according to Workforce Development Letter 18-20 dated October 15, 2020 and Workforce Development Letter 18-22 dated September 21, 2022. Workforce Solution Golden Crescent Board’s replies to those requirements are indicated throughout the remainder of this Plan under the heading: “Board Response”.

Part 1: Board Vision and Strategies

The required strategic elements of the Local Workforce Development Board Plan are as follows:

A. Vision and Goals

(WIOA §108(b)(1)(E); 20 CFR §679.560(a)(5))

Boards must include a description of the Board's strategic vision to support regional economic growth and economic self-sufficiency. The description must include;

- *goals for preparing an educated and skilled workforce, including early education services, and services for youth and individuals with barriers to employment; and*
- *goals relating to the performance accountability measures based on performance indicators described in WIOA §116(b)(2)(A).*

Board Response- Workforce Solutions Golden Crescent and its' regional partners recognize the collaborative process as a powerful means to achieve economic growth and vitality that enables the workforce occupational demand to increase, providing the opportunity for more job seekers to reach self-sufficiency.

WSGC recognizes that the coordination of efforts between education, workforce development, and economic development requires that effective partnerships be formed and managed to ensure the success of all involved. WSGC has developed a strong synergy with the regions' community college, university, independent school districts, economic development corporations, non-profits, and vendors, resulting in positive changes and growth in the regions' workforce and economy. Education fills the talent pipeline for the workforce and providing a skilled and productive labor pool is the foundation for economic development. The ability to foster and maintain that pipeline is a vital consideration to attract new business and is a necessary component for expansion of existing businesses. WSGC recognized the importance of community partners in all its activities and continues to facilitate leveraging and matching between partners to maximize the resources of all entities. The partners and organizations involved in education, workforce, and economic development have a common and vested interest in collaborating to create a comprehensive, seamless, and mutually beneficial system. WSGC serves as the logical fulcrum to balance, manage, and lead the effort to align all public and private entities to advance workforce initiatives in the Golden Crescent. We cannot succeed in connecting workers to jobs, if qualified workers are scarce, or there are too few quality jobs.

WSGC realizes its primary vision and mission must be to remain an integral part of strengthening the economy of the Golden Crescent by;

- ensuring the economic self-sufficiency of the residents,
- and providing skilled workers for employers,

This is consistent with the core mission of the Board:

To address employer and residents needs through workforce development initiatives, resulting in a skilled labor force and a vibrant economy for the Golden Crescent.

WSGC and its' regional workforce partners have a long tradition of collaborative planning and have aligned strategic initiatives with targeted industry sectors and demand occupations. In accordance with Workforce Development Letter 18-22, WIOA, and TWIC requirements, our

strategic goals outlined below identify the key areas of focus for the duration of this Plan including;

Goal #1: Improve Opportunities for Youth and Job Seekers with Barriers to Employment

By aligning programs and resources that address high-priority programmatic needs through an integrated strategy, WSGC can improve the opportunities and outcomes of ALL participants to complete programs of study, earn credentials, transition to further education, and gain critical employability skills.

Objective #1

Work with employers to assist in the implementation of work-based learning initiatives, including internships, work experience, job shadowing, leadership development activities, pre-apprenticeship, apprenticeship, pre-employment transition, subsidized summer employment, and financial literacy through the Board’s Student HireAbility Navigator (SHN).

Objective #2

The SHN initiative provides support and coordination around the region to grow and improve workforce transition services offered to students with disabilities & their families. SHN serves as a vital resource and partner to enhance current programs offered by Texas Workforce Commission's Vocational Rehabilitation Services through three areas of focus:

Focus #1 - Raise awareness of resources and activities available to students with disabilities.

Focus #2 - Increase community coordination and provide information, training, and technical assistance.

Focus #3 - Inform and engage employers to increase understanding and develop work-based learning opportunities.

Objective #3

Focus on reconnecting WIOA out-of-school youth (OSY) to education and jobs and provide WIOA in-school-youth (ISY) with supports that are necessary for the successful completion of high school.

Objective #4

Work in partnerships to assist youth in GED/high school completion activities, tutoring, subsidized employment, college visits, and strategic career information.

Objective #5

Strengthen partnerships with secondary education institutions and AEL providers to promote high school diploma (and equivalency) attainment, and to prevent youth from dropping out of school.

Goal #2: Performance Accountability

Per the performance accountability measures described in WIOA §116(b)(2)(A), WSGC Board of Directors and committees evaluate the performance and operations of the system as a whole, and that of each individual component. This framework and the overall Board emphasis on

continuous improvement, contributes to maintaining effective and efficient integration and coordination in the workforce system.

Objective #1

Continue to review and refine all contracting and procurement policies, procedures, and processes to ensure compliance and adherence to applicable rules and regulations.

Objective #2

Continue to strengthen systems that support an environment of knowledge and provides the needed insight to attain and excel in all TWC-Contracted performance measures and other contracted grant deliverables.

Objective #3

Maintain adequate internal accounting controls to provide assurance of properly recorded, timely transactions that are in accordance with state and federal regulations, including the provision of accurate financial records to the Board, Local, State, and Federal agencies.

Objective #4

Maintain and promote a continuous improvement process to ensure accountability, integrity, and quality within our workforce programs.

Objective #5

Continue to work to ensure that all data and customer information is secure and protected from unauthorized access and exposure.

In accordance Workforce Development Letter 18-22 and related attachments, as well as TWIC requirements, these local goals and objectives are consistent with the statewide goals and objectives in the system strategic plan, *The Texas Workforce System Strategic Plan FY 2016–FY 2023 (2020 Update) and subsequent revisions.*

B. Board Strategies

(WIOA §108(b)(1)(F); 20 CFR §679.560(a)(6))

Boards must include a description of the Board’s strategy to work with the entities carrying out the core programs and with the required partners to align resources available to the local workforce development area (workforce area) to achieve the vision and goals.

Board Response-Please refer to the goals and corresponding objectives associated with Board Goals #3 and #4. Additionally, WSGC has co-hosted and participated in several local and regional integration meetings with core partners. The partners include WIOA Title II Adult Education and Literacy, WIOA Title IV Vocational Rehabilitation, local educational institutions, and community-based organizations. WSGC core partners are committed to consistently provide excellent service to workforce system customers, to align resources available in the Golden Crescent, to achieve these goals and objectives.

Goal #3: Align System Elements

By improving transitions, aligning programs, and ensuring portability and transferability, Texas improves access and the ability of all participants to complete programs of study, earn credentials, transition to further education, and gain critical employability skills. Texas employers are better positioned to find and hire the employees they need through an enhanced education and training pipeline.

Objective #1

Improve the system's ability and *adaptability* to respond in a meaningful way to workforce problems, with workforce *solutions*.

- Effectively integrate planning initiatives that require partner coordination to ensure alignment.
- College and career readiness is achieved by availability of both academic courses and rigorous career technical education courses to support all students through a continuum of choices (two- and four-year degrees, apprenticeship, and military).
- Improve program and initiative alignment to ensure seamless educational and career transitions through coordinated and integrated planning.
- Increase awareness and educate high school counselors to create a secondary school culture where all students and parents understand the wide range of career and educational choices, including middle skill careers.
- Expand and integrate middle skills training to meet current and future employer demand.
- Ensure veterans have programs, products, and services to accommodate their needs to enter the workforce and necessary to meet current and future employer demand.
- Enhance planning and collaboration to achieve alignment across workforce system components to meet employer and community needs.
- Programs and services must be aligned with employer needs.

Objective #2

Monitor, evaluate, and continuously strive to improve the quality and quantity of services available to our customers (employers and job seekers).

Objective #3

Address all WIOA defined barriers to employment through Adult, Dislocated Worker and Youth program activities and partner with community program providers to enhance the skill level and earnings potential for participants with significant barriers to employment.

Objective #4

Work with TWC, AEL, and Vocational Rehabilitation partners to consolidate intake, referral, and service strategies that focus on training and employment.

Goal #4: Improve and Integrate Programs:

Accelerate employment and improve efficiencies through shared resources that can be leveraged to create new, relevant, and innovative opportunities that serve the needs of all stakeholders. By addressing high-priority programmatic needs through an integrated strategy, decision-making at the system, partner, and participant levels is improved and system service delivery is enhanced.

Objective #1

Work with employers, educational institutions, and regional partners to identify clear pathways or “mapping” of knowledge, skills and abilities that illustrate the steps necessary to move from one educational or employment milestone to another.

Objective #2

Increase the amount of investment (according to each revenue stream) dedicated to direct customer services (decrease ‘cost-per-participant’).

Objective #3

Increase the number of customers receiving and completing training/employment activities.

Objective #4

Annually, or as conditions warrant, review programs, services, and method of delivery for cost effectiveness and overall impact.

Objective #5

Continually explore and pursue options (grants and related alternative funding opportunities) to supplement WSGC budget of State and Federal monies received as a 501c3.

Objective #6

Work with area partners to continuously improve the referral system to help remove obstacles and barriers to success, to promote successful performance on the job and in school.

Objective #7

Work with the area 2-year and 4-year post-secondary schools to identify, develop, and support methods to maximize transferable credits or military training towards attainment of an industry-recognized degree, license, or certification.

C. High-Performing Board

(WIOA §108(b)(18); 20 CFR §679.560(b)(17))

Boards must include a description of the actions the Board will take toward becoming or remaining a high-performing Board, consistent with the factors developed by the Texas Workforce Investment Council (TWIC).

Board Response-Per the performance accountability measures described in WIOA §116(b)(2)(A), WSGC Board of Directors and committees evaluate the performance and operations of the system as a whole, and that of each individual component. This framework and the overall Board emphasis on continuous improvement, contributes to maintaining effective and efficient integration and coordination in the workforce system. Actions the Board will take toward remaining a high-performing Board include (but are not limited to) the following:

- Continue to review and refine all contracting and procurement policies, procedures, and processes to ensure compliance and adherence to applicable rules and regulations.

- Continue to strengthen systems that support an environment of knowledge and provides the needed insight to attain and excel in all TWC-Contracted performance measures and other contracted grants.
- Maintain adequate internal accounting controls to provide assurance of properly recorded, timely transactions that are in accordance with state and federal regulations, including the provision of accurate financial records to the Board, Local, State, and Federal agencies.
- Maintain and promote a continuous improvement process to ensure accountability, integrity, and quality within our workforce programs.
- Continue to work to ensure that all data and customer information is secure and protected from unauthorized access and exposure.

WSGC is proud of their history of high performance including numerous years of meeting or exceeding all TWC-contracted performance measures and receiving multiple awards for performance and service excellence. WSGC has achieved this status through rigorous accountability standards and maintaining a vision of excellence, leadership, and innovation for WSGC staff and their partners.

Part 2. Economic and Workforce Analysis

A. Regional Economic and Employment Needs Analysis

(WIOA §108(b)(1)(A); 20 CFR §679.560(a)(1))

Boards must include a regional analysis of the following:

- *The economic conditions, including existing and emerging in-demand industry sectors, in-demand occupations, and target occupations.*
- *The employment needs of employers in existing and emerging in-demand industry sectors, in-demand occupations, and target occupations.*

Board Response- Comprehensive and detailed Economic and Workforce Analysis for the Golden Crescent region contained on the following pages, include;

- Demographic Profile
- Employment and Wage Trends
- Cost of Living Index
- Industry Snapshot
- Occupation Snapshot
- Industry Clusters
- WSGC Target Occupation List

Demographic Profile

The population in the Golden Crescent was 197,031 per American Community Survey data for 2016-2020. The region has a civilian labor force of 91,357 with a participation rate of 59.6%. Of individuals 25 to 64 in the Golden Crescent, 17.2% have a bachelor's degree or higher which compares with 34.3% in the nation. The median household income in the Golden Crescent is \$57,235 and the median house value is \$139,567.

1. American Community Survey 2016-2020, unless noted otherwise

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

4. Census Population Estimate for 2020, annual average growth rate since 2010.

Employment Trends

As of 2022Q2, total employment for the Golden Crescent was 88,530 (based on a four-quarter moving average). Over the year ending 2022Q2, employment increased 4.0% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics. Data are updated to 2022Q2.

Unemployment Rate

The unemployment rate for the Golden Crescent was 3.7% as of December 2022. The regional unemployment rate was higher than the national rate of 3.4%. One year earlier, in December 2021, the unemployment rate in the Golden Crescent was 4.8%.

Unemployment data derived by the Bureau of Labor Statistics and updated to December 2022.

Wage trends

The average worker in the Golden Crescent earned annual wages of \$51,150 as of 2022Q2. Average annual wages per worker increased 5.3% in the region over the preceding four quarters. For comparison purposes, annual average wages were \$67,777 in the nation as of 2022Q2.

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2022Q1 with preliminary estimates updated to 2022Q2.

Industry Snapshot

The largest sector in the Golden Crescent is Health Care and Social Assistance, employing 10,536 workers. The next-largest sectors in the region are Retail Trade (10,218 workers) and Manufacturing (9,695). High location quotients (LQs) indicate sectors in which a region has high concentrations of employment compared to the national average. The sectors with the largest LQs in the region are Mining, Quarrying, and Oil and Gas Extraction (LQ = 10.97), Agriculture, Forestry, Fishing and Hunting (4.75), and Utilities (2.08).

Total Workers for Golden Crescent by Industry

Source: JobsEQ® Data as of 2022Q2

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2022Q1 with preliminary estimates updated to 2022Q2.

Sectors in the Golden Crescent with the highest average wages per worker are Management of Companies and Enterprises (\$103,151), Utilities (\$85,648), and Manufacturing (\$83,952). Regional sectors with the best job growth (or most moderate job losses) over the last 5 years are Construction (+1,363 jobs), Manufacturing (+240), and Professional, Scientific, and Technical Services (+232).

Over the next 1 year, employment in the Golden Crescent is projected to expand by 238 jobs. The fastest growing sector in the region is expected to be Arts, Entertainment, and Recreation with a +2.6% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Accommodation and Food Services (+123 jobs), Health Care and Social Assistance (+80), and Mining, Quarrying, and Oil and Gas Extraction (+76).

Data as of 2022Q2

Note: Figures may not sum due to rounding.

1. All data based upon a four-quarter moving average

Exits and transfers are approximate estimates based upon occupation separation rates.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2022Q1 with preliminary estimates updated to 2022Q2. Forecast employment growth uses national projections adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in the Golden Crescent is Office and Administrative Support Occupations, employing 9,359 workers. The next-largest occupation groups in the region are Management Occupations (9,071 workers) and Sales and Related Occupations (8,366). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Farming, Fishing, and Forestry Occupations (LQ = 2.07), Construction and Extraction Occupations (1.86), and Management Occupations (1.50).

Occupation groups in the Golden Crescent with the highest average wages per worker are Legal Occupations (\$95,200), Architecture and Engineering Occupations (\$91,400), and Management Occupations (\$83,300). The unemployment rate in the region varied among the major groups from 1.4% among Healthcare Practitioners and Technical Occupations to 8.0% among Food Preparation and Serving Related Occupations.

Over the next 1 year, the fastest growing occupation group in the Golden Crescent is expected to be Food Preparation and Serving Related Occupations with a +1.5% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Food Preparation and Serving Related Occupations (+102 jobs) and Construction and Extraction Occupations (+52). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Food Preparation and Serving Related Occupations (1,230 jobs) and Sales and Related Occupations (1,102).

Data as of 2022Q2 unless noted otherwise

Note: Figures may not sum due to rounding.

1. Data based on a four-quarter moving average unless noted otherwise.

2. Wage data are as of 2021 and represent the average for all Covered Employment

3. Data represent found online ads active within the last thirty days in the selected region; data represents a sampling rather than the complete universe of postings. Ads lacking zip code information but designating a place (city, town, etc.) may be assigned to the zip code with greatest employment in that place for queries in this analytic. Due to alternative county-assignment algorithms, ad counts in this analytic may not match that shown in RTI (nor in the popup window ad list).

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2022Q1, imputed where necessary with preliminary estimates updated to 2022Q2. Wages by occupation are as of 2021 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in the Golden Crescent with the highest relative concentration is Coal/Oil/Power with a location quotient of 6.56. This cluster employs 4,549 workers in the region with average wages of \$91,352. Employment in this energy cluster is projected to expand in the region about 1.4% per year over the next ten years.

Industry Clusters for Golden Crescent as of 2022Q2

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2022Q1 with preliminary estimates updated to 2022Q2. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

The previous table indicates industry sectors with current and forecasted growth potential that will be targeted by the Board.

Additionally, each biennium, or as economic conditions dictate, the Board review and updates their *Target Occupation List*. This is a function of our Labor Market Committee, an *Ad Hoc* Committee comprised of several Board members, employers, training providers, Workforce Center staff, and other stakeholders. Collectively, they are charged with evaluating the occupations that are listed, to ensure they accurately reflect the needs of the community (employers and job seekers) as well as the potential needs of industry looking to expand or re-locate to our area. Furthermore, we are only allowed to commit WIOA training dollars to occupations designated on that list, through our Individual Training Account (ITA) process. Considering that WIOA serves as the primary job-training revenue stream, it's imperative that the occupations on the list, not only mirror the needs of our industry and job seeker customers, but that those jobs (and the resulting training options) are actually in high-demand, provide a self-sufficient "livable" wage, and demonstrate sustained growth potential.

Furthermore, we are only allowed to commit WIOA training dollars to occupations designated on that list, through our Individual Training Account (ITA) process. Considering that WIOA serves as the primary job-training revenue stream, it's imperative that the occupations on the list, not only mirror the needs of our industry and job seeker customers, but that those jobs (and the corresponding training options) result in high-demand, self-sufficient "livable" wage careers with demonstrated growth potential.

The Committee reviews the existing Target Occupation list (attached) and applies the selection criteria [designated by TWC and our Board] to each occupation. These include;

- Employment Growth Rate (observed over recent period & percent projected)
- Wages (avg. weekly/monthly earnings & minimum annual salary)
- Job Openings (current/fill rate)
- Area Training that is on or can be added to TWC Eligible Training Provider List
- Can be completed in 2 years or less
- Result in an industry-recognized certificate or licensure
- Local Wisdom (current area information area that might not be reflected in DOL data)

As part of the comprehensive Labor Market analysis, we rely on data gathered from a variety of sources including, but not limited to;

- JobsEQ-Chmura Economics
- Sites on Texas data and reports
- TWC Labor Market and Career Information Reports
- WorkinTexas (WiT) Data
- DOL & BLS data
- Any information gleaned from Committee members

The resulting list of occupations were approved by the Board on May 27, 2021 to devote training dollars and needs-related assistance for the participants enrolled in those training disciplines associated with the occupation.

The “vetting” process was completed in accordance with TWC evaluation criteria, and the list was presented to the Policy and Planning Committee for review and recommendation and ratified by the Board of Directors. We anticipate reviewing the list on or before May 2023. The following is a list of Target Occupations for the Golden Crescent;

13-2011	Accountants and Auditors
49-3023	Automotive Service Technicians and Mechanics
43-3031	Bookkeeping, Accounting, and Auditing Clerks
47-2031	Carpenters
15-1552	Computer Network Support Specialists
51-4012	Computer Numerically Controlled (CNC) Machine Tool Programmers, Metal, Plastic
33-3012	Correctional Officers/Jailers
49-3031	Diesel Mechanics
49-9051	Electrical Power-Line Installers and Repairers
47-2111	Electricians
29-2041	Emergency Medical Technicians & Paramedics
33-2011	Firefighters
49-9021	Heating/Air Conditioning/Refrigeration Mechanics & Installers
49-9041	Industrial Machinery Mechanics
17-3023	Instrumentation/Electrical (I&E) Technicians
29-2061	Licensed Vocational Nurses
51-4041	Machinists
31-9092	Medical Assistant
29-2071	Medical Records/Health Information Specialists
49-9044	Millwrights
31-2011	Occupational Therapy Assistants
29-9011	Occupational Health and Safety Specialists
47-2073	Operating Engineers/Construction Equipment, Crane, or Heavy Equipment Operators
29-2052	Pharmacy Technicians
31-2021	Physical Therapist Assistants
51-8091	Plant Systems/Process Operators
47-2152	Plumbers, Pipefitter, and Steamfitters
33-3051	Police & Sheriff’s Patrol Officers
29-1111	Registered Nurses
29-1126	Respiratory Therapists
47-2221	Structural Iron & Steel Workers
25-3097	Teachers-Early, Elementary, Middle, Secondary, ESL, & Special Education
53-3032	Truck Drivers, Heavy/Tractor Trailers
51-4121	Welders/Cutters/Solderers/Brazers

B. Knowledge and Skills Analysis

(WIOA §108(b)(1)(B); 20 CFR §679.560(a)(2))

Boards must include an analysis of the knowledge and skills needed to meet the employment needs of the employers in the region, including employment needs for in-demand industry sectors, in-demand occupations, and target occupations.

Board Response- The Board analyzed the in-demand sectors and associated occupations then cross-referenced that data with the workforce characteristics for workers and job seekers (Education Level) in our region. Also included was the average number of graduates and program exiters with a certificate or credential. The table on the following page shows all the educational programs, enrollments and graduates by Classification of Instructional Program (CIP) code that are directly or closely related to the entire group of occupations identified as critical for the designated industry sector or cluster. Analysis of the report can assist the Board in identifying those educational program areas that might receive priority attention if the objective is to produce more graduates with the educational backgrounds necessary to fill critical occupations in the targeted/demand/industry group or cluster. All public colleges and universities whose graduates represent significant contributions to the regional labor market (LWDA) are included in the graduate count.

Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in the Golden Crescent is projected to grow 0.3% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 0.4% per year, those requiring a bachelor’s degree are forecast to grow 0.5% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 0.5% per year.

Employment by occupation data are estimates as of 2022Q2. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

C. Labor Force Analysis and Trends

(WIOA §108(b)(1)(C); 20 CFR §679.560(a)(3))

Boards must include an analysis of the regional workforce, including current labor force (per WD Letter 18-20-22) employment and unemployment data, information on labor market trends, and educational and skill levels of the workforce, including individuals with barriers to employment.

Board Response-In addition to the Labor Market information previously included the population in the Golden Crescent was 197,031 per American Community Survey data for 2016-2020. The region has a civilian labor force of 91,357 with a participation rate of 59.6%. Of individuals 25 to 64 in the Golden Crescent, 17.2% have a bachelor's degree or higher which compares with 34.3% in the nation. The median household income in the Golden Crescent is \$57,235 and the median house value is \$139,567. The table below contains additional workforce information, including employment/unemployment trends as of December 2022.

The largest major occupation group in the Golden Crescent is Office and Administrative Support Occupations, employing 9,359 workers. The next-largest occupation groups in the region are Management Occupations (9,071 workers) and Sales and Related Occupations (8,366). The unemployment rate in the region varied among the major groups from 1.4% among Healthcare Practitioners and Technical Occupations to 8.0% among Food Preparation and Serving Related Occupations. Over the next 1 year, the fastest growing occupation group in the Golden Crescent

is expected to be Food Preparation and Serving Related Occupations with a +1.5% year-over-year rate of growth.

For additional comprehensive and detailed LMI, please refer to the Board Response under heading; *Part 2. Economic and Workforce Analysis; A. Regional Economic and Employment Needs Analysis.*

Regarding those individuals with barriers to employment, the Board continually seeks to improve the ability of all participants to complete programs of study, earn credentials, transition to further education, and gain skills necessary to secure and sustain employment. WSGC has identified strategies to align program administration and implementation with our partners and through our Student HireAbility Navigator. Those are;

- Capitalize on our Communities in School (CIS) affiliation and Student HireAbility Navigator to provide in-school-youth (ISY) with necessary support for the successful completion of high school.
- Continually improve the referral system to remove obstacles and barriers to success, to promote successful performance on the job and in school.
- Address all WIOA-defined barriers to employment through Adult, Dislocated Worker and Youth program activities and partner with community program providers to enhance the skill level and earnings potential for participants with significant barriers to employment.
- Collaborate with TWC, AEL, and Vocational Rehabilitation partners to consolidate intake, referral, and service strategies that focus on training and employment.
- Work with area business and employers to assist in the implementation of work-based learning initiatives, including internships, work experience, job shadowing, leadership development activities, pre-apprenticeship, apprenticeship, subsidized summer employment, and financial literacy.
- Focus on reconnecting out-of-school youth (OSY) to education and jobs, through our HS diploma/graduation initiative with Community Action and area ISD's to promote high school (and equivalency) attainment.
- Work in partnership (WSGC/CIS/ISD's) to assist youth in GED/high school completion activities, tutoring, subsidized employment, college visits, and strategic career information and employment opportunities in an effort to stymie the exodus of rural HS graduates to urban and metro areas.

D. Workforce Development Analysis

(WIOA §108(b)(1)(D); 20 CFR §679.560(a)(4))

Boards must include an analysis of workforce development activities in the region, including education and training.

Board Response-In their role as facilitator in the development of strategic alliances and partnerships of workforce development initiatives, the Board continually collects and reviews data, similar to the Labor Market information provided in previous tables, charts, and graphs within this Plan. Through this analysis, we determine our capacity to address the effectiveness of workforce development activities collectively, as well as an evaluation of the programs and services we offer. Through collaboration with our workforce system partners, including

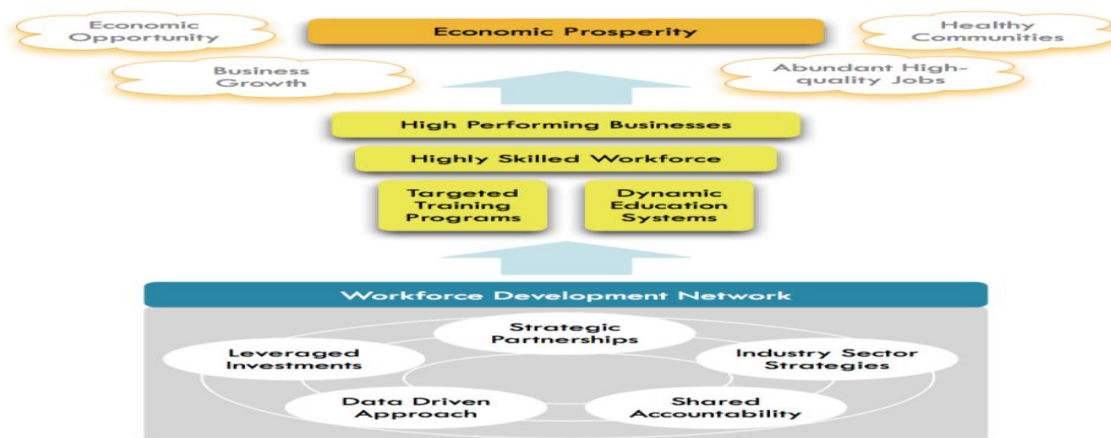

education (secondary and post-secondary) and economic development, we concentrate our efforts on outcomes that leverage regional resources. Expected growth rates for occupations vary by the education and training required. While all employment in the Golden Crescent is projected to grow 0.3% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 0.4% per year, those requiring a bachelor’s degree are forecast to grow 0.5% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 0.5% per year.

Annual Average Projected Job Growth by Training Required

Employment by occupation data are estimates as of 2022Q2. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

The Board regularly analyzes the demand sectors and associated occupations then cross-referenced that data with the workforce characteristics for workers and job seekers (including individuals with barriers to employment) in our region. Also considered is the average number of graduates and program completers with a certificate or credential. Analysis includes educational programs, enrollments, and graduates by Classification of Instructional Program (CIP) code that are directly related to the entire group of occupations identified as critical for the designated industry sector or cluster. This analysis assists in identifying those educational programs that should receive priority attention to produce more graduates with the educational background necessary to fill critical occupations in the targeted/demand/industry clusters. Through our strategic partnerships and leveraged investments, we strive to enhance system alignment and promote the shared goals of economic prosperity to the Golden Crescent regional economy via the entire workforce development network.

Part 3: Core Programs

A. Workforce Development System

(WIOA §108(b)(2); 20 CFR §679.560(b)(1))

Boards must include a description of the workforce development system in the workforce area that identifies:

- the programs that are included in the system; and
- how the Board will work with the entities that facilitate core programs and other workforce development programs to support alignment to provide services, including programs of study authorized under the Carl D. Perkins Career and Technical Education Act of 2006, that support the strategy identified in the State Plan under WIOA §102(b)(1)(E).

Board Response- The core programs that are to be provided by Workforce Solution Golden Crescent are:

- Workforce Innovation & Opportunity Act (WIOA) Adult, Youth and Dislocated Worker;
- Temporary Assistance for Needy Families (TANF)/Choices;
- Non-Custodial Parent Choices Program (NCP-Choices);
- Supplemental Nutrition Assistance Program Employment & Training (SNAP);
- Student HireAbility Navigator
- Communities in Schools (CIS)
- Trade Adjustment Assistance Act (TAA);
- Wagner-Peyser Employment Services (TWC staff integrated under the Texas Model);
- Veteran’s Employment Services (employed by the Texas Veterans Commission -TVC)

WSGC has vast experience in serving the universal population, as well as program recipients, Veterans, UI claimants, at-risk youth, and persons with disabilities. All new customers visiting the workforce centers receive one-on-one staff-assisted services. The customer is interviewed, assessed, and provided services to best fit their need.

Tables reflects participants served (by program) from 2019-2022

Additionally, the Board supports the strategies identified in the State Plan and work with the entities carrying out core programs and other workforce development programs, including programs that are not under the direct oversight of the Board, such as:

- Adult Education and Literacy (WIOA, Title II);
- Certificate/Postsecondary Career and Training programs;
- Senior Community Service Employment Program and,
- HHSC and Office of the Attorney General (partnership with TWC).

Regarding programs of study authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (WIOA §102(b)(1)E), WSGC will continue support, promote, and expand the academic and career and technical skills of secondary education students and postsecondary education students who enroll in career and technical education programs.

B. Core Programs—Expand Access, Facilitate Development, and Improve Access

(WIOA §108(b)(3); 20 CFR §679.560(b)(2))

Boards must include a description of how they will work with entities carrying out core programs to:

- *expand access to employment, training, education, and support services for eligible individuals, particularly eligible individuals with barriers to employment;*
- *facilitate the development of career pathways and coenrollment, as appropriate, in core programs, including specific career pathways occupations that the Board currently includes on its Target Occupations List, and career pathways occupations that the Board is planning to develop; and*
- *improve access to activities leading to a recognized postsecondary credential (including a credential that is an industry-recognized certificate or certification, portable, and stackable).*

Boards must include a description of the Board’s plan for working with at least one of the Governor’s industry clusters.

Board Response- As previously noted, the Board is continually developing agreements with system partners, including:

- employers to increase the availability and coordination of integrated work-based learning opportunities such as work experience, pre-apprenticeship, apprenticeship, internship, job shadowing, and on-the-job training,
- community and technical colleges,
- independent school districts,
- educational service centers,
- partner community and social service agencies,
- any other stakeholders,

with the goal of expanding access to employment, training, education, and supportive services for eligible individuals, including individuals with barriers to employment.

In our employer-driven system, our primary objective is to create the best match of job-to-worker, based on the experience and education of our job seeker customer and the job requirements of our business and industry customers.

Regarding initial Employment Services, WSGC Center staff will determine eligibility to receive assistance under one of our many core programs. This includes outreach, intake, orientations to information/services, and assessments.

The following services will be included:

- Job Matching through WorkInTexas.com and Resource Room assistance located throughout our one-stop centers,
- Resume preparation and/or referrals to other programs,
- Career Services/Planning:
 - provision of workforce/labor market analysis and information, including eligible training providers, local area opportunities,
 - availability of program and support services.
 - comprehensive and specialized assessments (i.e. ProveIt assessments);
 - individual employment plans (IEP) development;
 - short-term pre-vocational services;
 - subsidized or unsubsidized work experiences;
 - workforce preparation activities;
 - financial planning or management services;
 - job search and relocation assistance; and
 - English as a second language (ESL) and Texas High School Equivalency Program (HSEP) services/training.

For job seekers who remain unsuccessful in finding or returning to employment and are interested in more extensive training, WSGC can provide training funds, providing federal eligibility guidelines for participation in WIOA have been established. A comprehensive assessment is the first step in determining what training activity (if any) is needed to assist the participant in determining what services are available to move them towards self-sufficiency.

These comprehensive and diagnostic assessments, which include the Test of Adult Basic Education (TABE) and Career Occupational Preference System (COPS) Interest Inventory measures an examinee's level of aptitude and interest. These tests are combined with an in-depth interview and evaluation to identify employment (or re-employment) barriers and corresponding employment goals. Additional WIOA services include individual career planning, which entails the development of an Individual Employment Plan (IEP) identifying (at a minimum);

- Employment Goals
- Achievement objectives
- Associated combination of services required to achieve those goals

If it is determined through this comprehensive assessment that training (or re-training) is required *and* the customer demonstrates a commitment to achieve their employment goals, then contingent upon funding availability and consistent with Program guidelines, the following training/career education services are available;

- Occupational Skills Training (short-term certificate/credential, or up to 2 years);
- On-the-Job Training (OJT);
- Apprenticeship/Pre-Apprenticeship (according to DOL and employer guidelines);
- Adult Education and Literacy (AEL) services, and;
- Customized Training.

As noted previously, training funds are restricted to skills required in WSGC-approved target occupations. Once the customer has made an informed choice and an approved training program has been selected, they will be instructed to apply for admission into the training program and complete any pre-requisites (if necessary). Upon completion of the application process with the appropriate ETPS-approved training provider, the customer and WSGC Case Manager will complete a budget analysis to determine the amount of financial assistance that is required for the participant to successfully complete the course of study. In the case of OJT, the customer will be partnered with a Business Services Representative to locate an employer willing to hire the individual for a training position. Upon completion of the training, the WSGC Case Manager will work with the individual to secure employment in the occupation in which they were trained. For customer's lacking a high school diploma, GED and High School Equivalency Program (HSEP) classes as well as English as a second language (ESL) services/training are arranged through Adult Education and Literacy or alternative high school diploma-attainment resources.

These training activities are available to *WIOA Adult, Dislocated Workers, and Youth*, respectively. WSGC staff are always mindful of capitalizing on situations or opportunities where the customer may be co-enrolled in multiple programs to maximize benefits to both parties. In the event of limited funding, Workforce Solutions Golden Crescent will determine priority of service based upon the governing rules and regulations for the specific program from which the individual is requesting services. However, it is the goal of the Board to continually seek ways to improve access for *ALL* customers, to activities leading to an industry recognized credential or certificate that are "portable" and part of a clearly-defined program of study/career pathway.

Regarding the Board's plan for working with at least one of the Governor's Industry Cluster Initiative, the Board fully supports the objective stimulating long-term sustained growth for the Golden Crescent and the state, by focusing the allocation of state resources on key industry sectors.

These "industry clusters" refer to a concentration of businesses and industries in a geographic region that are interconnected by the markets they serve, the products they produce, their suppliers, the trade associations to which their employees belong, and the educational institutions from which their employees or prospective employees receive training.

The Governor's target industry clusters are:

- Advanced Technologies and Manufacturing
- Aerospace and Defense
- Biotechnology and Life Sciences
- Information and Computer Technology
- Petroleum Refining and Chemical Products
- Energy

Because of our proximity to the shale play, combined with related mid-stream and down-stream energy and petrochemical production, we most closely align with *Petroleum Refining and Chemical Products* and *Energy* sectors, respectively. We recognize that the Governor's Texas Industry Cluster Initiative is building the future economy of the state of Texas by focusing on strengthening competitive advantage through these targeted industry clusters.

Part 4: One-Stop Service Delivery

A. One-Stop Service Delivery System

(WIOA §108(b)(6); 20 CFR §679.560(b)(5))

Boards must include a description of the one-stop delivery system in the workforce area, including explanations of the following:

- *How the Board will ensure the continuous improvement of eligible providers and how providers will meet the employment needs of local employers, workers, and job seekers*
- *How the Board will facilitate access to services provided through the one-stop delivery system, including to remote areas, through the use of technology and other means*
- *How entities within the one-stop delivery system, including the one-stop operators and the one-stop partners, will comply with WIOA §188 (related to Non-Discrimination), if applicable, and with applicable provisions of the Americans with Disabilities Act of 1990 regarding the physical and programmatic accessibility of facilities, programs and services, technology, and materials for individuals with disabilities, including providing staff training and support for addressing the needs of individuals who have disabilities*
- *The roles and resource contributions of the one-stop partners*

Board Response-The Board oversees the management and operation of Workforce Solutions Golden Crescent Career Centers and is therefore responsible for the continuous improvement of all system operations and the continuance of effectively and efficiently meeting the needs of businesses, job seekers, workers, and child care customers.

The Board annually conducts a performance review of each training provider that is certified and on the ETPS for; program completion rate, cost, training-related employment and entered employment. Additionally, the Board provides regular oversight and updating of the ETPS.

To ensure continuous improvement of all eligible providers, the following strategies are in place:

- contract performance measures are continuously monitored and renegotiated annually based on prior year's performance and,
- contract (and subsequent renewal/s) include language obligating contractor to adhere to Strategic Goals and Objectives established by the Board.

The Board and WSGC management team meet regularly to review contractual performance, as well as progress and strategies for deficiencies or areas for improvement. This also includes performance associated with meeting or exceeding the employment needs of local employers, workers, and job seekers.

Regarding access to services provided through the one-stop delivery system, including remote areas, using technology and other means, since six of the full-service centers are located in largely rural counties it is important for WSGC to capitalize on every form of technology available to maintain staff capability for provision of integrated services. The Board has quickly adapted to utilizing virtual platforms, such as Zoom, MS Teams, Premier Virtual and enhancing its social media presence, to safely and effectively interact with job seekers and employers. Additionally, the Board regularly deploys its Mobile Workforce Unit at scheduled locations throughout the region. The strategic deployment will be able to serve job seekers, employers and students, especially in our rural areas and can provide access to all the same technology available in our centers.

To compliment the physical and mobile service delivery, our website www.gcworkforce.org can act as a “virtual information center” providing information on job seeker and employer services, eligibility guidelines for various programs, services available to targeted populations (veterans, youth, individuals with disabilities), labor market information, etc.

The Board also maintains a social media presence to enhance their marketing saturation and quickly deliver information to larger number of users. It is used to promote upcoming events, distribute Unemployment Insurance information, apply for Child Care or other programs, and highlight information useful to employers, job seekers, and youth.

Likewise, in our enhanced capacity to provide Vocational Rehabilitation (VR) services as a result of the merger with Department of Assistive and Rehabilitative Services (DARS), we continue to fully comply with WIOA §188 and with applicable provisions of the Americans with Disabilities Act of 1990. In accordance with the legislation passed during the 84th Texas Legislative session creating the merger, the Board is currently finalizing colocation/integration of

One Stop and VR services resulting in an extensive improvement to the physical and programmatic accessibility of facilities, programs and services, technology, and materials for individuals with disabilities. This also included providing staff training and support for addressing the needs of individuals who have disabilities so that VR consumers would not experience any disruption of services and to maintain adherence to ADA and WIOA compliance standards.

Concerning the roles and resource contributions of the one-stop partners the Board has entered into Memorandums of Understanding (MOUs) with WSGC partners to compliment the array of workforce-related services offered. These include (but not limited to);

- educational institutions and training providers,
- other state agency partners,
- employer-led organizations,
- mental health providers,
- veterans service organizations,
- economic development entities,
- community and faith-based organizations
- associations of employers, and,

Workforce, economic development, training, and related activities, must be a collaborative effort to leveraging partner resources and maximize return of investments and fills gaps between the needs of the community and the provision of WSGC-funded services.

B. Cooperative Agreements

(WIOA §108(b)(14); 20 CFR §679.560(b)(13))

Boards must provide copies of executed cooperative agreements that explain how all local service providers, including additional providers, will carry out the requirements for integration of and access to the entire set of services available in the local one-stop delivery system. This includes cooperative agreements (as defined in WIOA §107(d)(11)) between the Board or other local entities described in §101(a)(11)(B) of the Rehabilitation Act of 1973 (29 USC 721(a)(11)(B)) and the local office of a designated state agency or designated state unit that administers programs that are carried out under Title I of the Rehabilitation Act (29 USC 720 et seq.) (other than §112 or part C of that title (29 USC 732, 741) and are subject to §121(f)) in accordance with §101(a)(11) of the Rehabilitation Act (29 USC 721(a)(11)) with respect to efforts that will enhance the provision of services to individuals who have disabilities and to other individuals, such as cross training of staff, technical assistance, use and sharing of information, cooperative efforts with employers, and other efforts.

Board Response- Please refer to the table on the following page for a list of current Memorandums of Understanding (MOU) and any cooperative agreements between the Board and partner agencies or organizations. For general information, the following components are included in each Memorandum of Understanding (MOU) the Board executes:

- Board name the partner entity or entities executing the MOU,

- A description of the services to be provided (*i.e.*, a full description of the services and responsibilities of each entity),
- Any other requirements of interest to the parties signing the MOU.

Memorandums of Understanding (MOU's)				
Name of Provider	Agreement Type	Begin date	End date	Info
Adult Education & Training				
Victoria College Adult Education Program	MOU & Infrastructure Agreement	9/1/2014	Renewed annually	Adult Education and Literacy

VISD EvenStart	MOU	6/16/2008	Indefinite	Assist VISD EvenStart referrals for Jobs & Asst.
Region 8	MOU	9/1/2021	8/31/2026	Assist DFPS to prepare former foster youth transition to adulthood
Perpetual Help Home	MOU	2/9/2021	Indefinite	Provide training/support services to women and children in crisis situations.

All MOU's and agreements are available for review [Monday through Friday 8a-5p] at our office in Victoria;

Workforce Solutions Golden Crescent
120 South Main, Suite #501
Victoria, TX 77901

Or, if you prefer, a copy can be forwarded to you electronically by calling 361.576.5872.

C. Employer Engagement, Economic Development, and Unemployment Insurance Program Coordination

(WIOA §108(b)(4); 20 CFR §679.560(b)(3))

- *Boards must include a description of the strategies and services that will be used in the workforce area to do the following:*
- *Facilitate engagement of employers in the workforce development programs, including small employers and employers in in-demand industry sectors, in-demand occupations, and target occupations*
- *Support a local workforce development system that meets the needs of businesses in the workforce area*
- *Better coordinate workforce development programs and economic development*
- *Strengthen links between the one-stop delivery system and unemployment insurance programs*

Note: *This may include the implementation of initiatives such as incumbent worker training programs, on-the-job training programs, customized training programs, industry and sector*

strategies, career pathways initiatives, use of effective business intermediaries, and other business services and strategies designed to meet the needs of regional employers. These initiatives must support the strategy described above.

Board Response- WSGC's Business Services Unit (BSU) serves as the Board's employer engagement team to promote the workforce system services throughout our 7-county region. (BSU) is an integral part of developing standards and procedures in an employer-driven system. The Board, BSU Supervisor, and BSU staff, actively engage employers, marketing workforce services to local businesses. BSU staff regularly contact employers weekly by phone, e-mail, and in person, to assess the current needs of the employer. The Board and BSU representatives are on various college, economic development, and chambers of commerce committees, to help address current workforce issues. BSU is divided into industry clusters and supported by Employer Services with like-industry clusters, to create a greater synergy between employer's needs and the available workforce.

The Board's Business and Employer directives address the employers need for job-ready, well-trained employees, matched to the job skills required. By considering employers as our primary customer, we have both improved and increased direct relationships with employers, resulting in a more effective set of core business activities while simultaneously improving the level of customer satisfaction to both customers (employer and job seeker).

To continue active engagement of Small Business, WSGC BSU team will work closely with;

- University of Houston-Victoria, Small Business Development Center,
- Area Economic Development entities and
- Area Chambers of Commerce
- County Judges and Chief Elected Officials

Additionally, we will work with regional staff in our full-service one-stop career centers, ensuring small businesses in our rural counties have access and knowledge of business and training services available.

Regarding the coordination of workforce and economic development, WSGC staff;

- Meet frequently with area economic development entities and collaborate regularly on employer focused services such as city specific job fairs, regional job fairs, business retention and expansion visits and increased sharing of data to benefit area businesses.
- Attend and participate in economic development meetings and provide information about workforce programs available via the Workforce Career Centers, including WIOA Adult, Dislocated Worker, and Youth programs, TANF, NCP-Choices, SNAP, and other program funding.
- Collaboration with area EDCs, to actively seek additional or special funding and grants geared toward local priorities (training, business planning, entrepreneurship, etc.)

These partnerships allow for distribution of information on available human resource assistance for businesses as well as skills training, through TWC's High Demand Job Training Grant (HDJT), Texas Industry Partnership Grant (TIP), Skills for Small Business Program, Self-Sufficiency Fund and Skills Development Fund (SDF) Grants.

To strengthen linkages between the one-stop delivery system and unemployment insurance programs, WSGC works to strengthen linkages between the one-stop delivery system and unemployment insurance programs by:

- Analyzing the demographics, work history, and education/skill level characteristics of the population of individuals receiving UI, and aligning employer outreach for job postings, work experience, on-the-job training, and other activities;
- Labor exchange and career counseling services, aimed at providing enhanced services to UI job seekers;
- Providing general information to Career Center customers about the Unemployment Insurance (UI) Program, as well as contact information for TWC department administering that program. This includes printed “How to apply” for UI benefits material;
- Collaborating with employers laying off individuals to identify retention strategies and/or strategies for rapid placement. Services are tailored to affected worker occupational and skill profiles;
- Continued promotion and marketing Workforce Career Center services and Rapid Response services to the general public to reach individuals that may be engaged with the UI Program, but not actively engaged with the Workforce Career Center;
- Coordinating with TWC UI office representatives to notify them of local layoffs and schedule Rapid Response services, and to enable TWC UI representatives to present at affected employee orientations;
- Working with the TWC statewide Rapid Response coordinator to share information on statewide layoffs and help place affected workers across WDA service boundaries and;
- Provide information to area employers regarding TWC’s Shared Work Program and other “layoff aversion” opportunities.

D. Coordination of Wagner-Peyser Services

(WIOA §108(b)(12); 20 CFR §679.560(b)(11))

A description of plans, assurances, and strategies for maximizing coordination, improving service delivery, and avoiding duplication of Wagner-Peyser Act services and other services provided through the one-stop delivery system.

Board Response- Under the Texas Model, contractor management staff are responsible for providing guidance, in coordination with TWC Integrated Service Area Managers (ISAM), of all merit staff. The arrangement allows for maximum coordination, enhanced and consistent service delivery, and minimal redundancy/duplication. The Board administers Wagner-Peyser through its Agency Board Agreement according to which merit state are responsible for providing the core of Wagner-Peyser Act services, with contractor staff supplementing those services where necessary.

E. Integrated, Technology-Enabled Intake and Case Management

(WIOA §108(b)(21); 20 CFR §679.560(b)(20))

Boards must include a description of how one-stop centers are implementing and transitioning to an integrated, technology-enabled intake and case management information system for programs carried out under WIOA and by one-stop partners.

Board Response Considering six of the full-service centers are located in largely rural counties, it is important for WSGC to capitalize on every form of technology available to maintain staff capability for provision of integrated services. As a result of the COVID-19 pandemic, the Board quickly adapted to utilization of virtual platforms, Zoom, MS Teams, Premier Virtual and enhancing its social media presence, to safely and effectively interact with job seekers, employers, and staff working remotely. Additionally, the Board regularly deploys its Mobile Workforce Unit at scheduled locations throughout the region. The strategic deployment will be able to serve job seekers, employers and students, especially in our rural areas and can provide access to all the same technology available in our centers. The Board’s website www.gcworkforce.org can act as a “virtual information center” and we maintain a social media presence through Facebook and other outlets to enhance marketing saturation and quickly deliver information to a larger number of users. It is used to promote upcoming events, distribute Unemployment Insurance information, apply for Child Care or other programs, and highlight information useful to employers, job seekers, and youth.

Likewise, in our enhanced capacity to provide Vocational Rehabilitation (VR) we continue to fully comply with WIOA §188 and with applicable provisions of the Americans with Disabilities Act of 1990. In accordance with the legislation passed during the 84th Texas Legislative session creating the merger, the Board finalized colocation/integration of One Stop and VR services at their Victoria Center in May 2021, resulting in an extensive improvement to the physical and programmatic accessibility of facilities, programs and services, technology, and materials for individuals with disabilities. This also included providing staff training and support for addressing the needs of individuals who have disabilities so that VR consumers would not experience any disruption of services and to maintain adherence to ADA and WIOA compliance standards.

Part 5: Workforce Investment Activities

A. Economic Development and Entrepreneurial/Microenterprise Activities *(WIOA §108(b)(5); 20 CFR §679.560(b)(4))*

Boards must include an explanation of how the Board will coordinate local workforce investment activities with regional economic development activities that are carried out in the workforce area and how the Board will promote entrepreneurial-skills training and microenterprise services.

Board Response- WSGC maintains a strong commitment of engaging and aligning workforce development, economic development, and educational efforts, ensuring the Golden Crescent region remains competitive in the economy. We are actively involved with economic development entities, chambers of commerce, and industry/employer associations within the region. The Board’s Executive Director, Business Services Director, WSGC Managing Director and Business Services Unit meet frequently with area economic development entities and collaborate regularly on employer focused services such as business retention and expansion and

increased sharing of data to benefit area businesses. We attend and participate in economic development meetings and provide information about workforce programs and collaborate with area EDCs, to actively seek additional or special funding and grants geared toward their respective local priorities including entrepreneurial-skills training and microenterprise services. Additionally, in Spring 2023, we will also be participating in the unveiling of the regional Economic Development Strategic Plan as generated by Newmark Group Inc. in partnership with Victoria Economic Development Corporation. The study will include findings and recommendations based upon an extensive survey of area stakeholders and regional EDC meetings.

B. Rapid Response Activity Coordination

(WIOA §108(b)(8); 20 CFR §679.560(b)(7))

Boards must include a description of how the Board will coordinate workforce investment activities carried out in the workforce area with statewide rapid response activities described in WIOA §134(a)(2)(A).

Board Response-In accordance with WIOA §134(a)(2)(A) and upon notification that a reduction in force (RIF), layoff, or closure is planned, eminent, or has occurred, the Board's Rapid Response (RR) Coordinator contacts the employer. If allowed, an onsite meeting is scheduled with the employer and includes the Supervisor of the Business Services Unit. A plan to provide Rapid Response services is developed and the TWC Mass Claim process (if applicable) is discussed and information on Trade Adjustment Assistance (if applicable) is provided. At a minimum, the Rapid Response Coordinator schedules Employee Orientations and coordinates (between the employer, designated TWC Unemployment Insurance (UI) Specialist, and assigned Center Staff) to do RR presentation(s).

Presentation(s) will include an Employee Orientation explaining the UI filing process, work search requirements, registration in Work in Texas (WiT) as well as an overview of the services offered at the workforce center. After the attendees are briefed on the filing process for UI benefits, they are asked to complete an RR Service questionnaire regarding workshops, training (or re-training), services they are interested in receiving, and assistance with WiT registration. Although, when possible, RR events/presentations are held on site at the employer's location, the attendees are advised to visit their nearest workforce center for a full orientation on services available to help them quickly reconnect to the labor market.

Using information gathered at the presentation(s) and after reviewing the RR questionnaire, the RR Coordinator and employer go over the type of workshops that are needed and what is available. Examples include money management, resume writing, stress management, financial aid for higher education, GED preparation, entrepreneurship and other small business opportunities, retirement planning, etc. If feasible, the workshops are also held onsite for the convenience of the impacted workers. During a Rapid Response meeting, if it is determined that the employer's reduction in force, layoff, or closure, is trade-related, or could be considered negatively impacted by global influences, then information is given regarding the Trade Adjustment Assistance (TAA) program. This federally-funded program is designed to help workers that have lost their job through no fault of their own as a result of foreign trade, imports,

or shift of employment abroad. TAA benefits are provided [at no cost to the employer] to help eligible workers return to work at or above their previous skills level and at least 80% of their previous wage.

If there is a possibility that the layoff is “TAA-eligible”, a detailed overview of the program is provided including information on filing the petition. Keeping in mind that it could take some time for the TAA petition to be reviewed/certified by the U.S. Department of Labor (DOL), the dislocated workers are still eligible to receive the following services;

- Job search assistance, (eligibility determination for additional WIOA-funded services).
- Additional assistance to secure employment (comprehensive, specialized assessment of skill level and services need for re-employment.
- Dislocated Worker Services: For employees laid-off because of RIF or closure. Typical services include resume writing, money management, stress management, job search assistance, resource room, labor market information, and referral to vocational training as appropriate.
- Training Services: OJT, occupational training, customized (contracted) training, etc.
- Support Services: Transportation assistance, child care, work (or training) related expenses to participate in WIOA-funded activities.
- Interviewing skills.

Once DOL has certified the TAA petition, the workers are then eligible for additional TAA-funded benefits which include;

- Job Search Allowances: Travel expenses for job interviews outside the customer’s area.
- Relocation Allowances: Pays a portion of the moving expenses for the customer if they get a job outside the local area.
- Trade Readjustment Allowances: Additional funding [after regular UI benefits are exhausted] if the customer is enrolled in training full-time.
- Alternative Trade Adjustment Assistance (ATAA): Supplemental pay to customer that is;
 - At least 50 years of age,
 - working full-time,
 - earning less than they had been making in the [TAA-certified] job they were laid off from.
- Health Coverage Tax Credit (HCTC): Program funded by the IRS that pays partial subsidy towards health insurance premiums. Can be redeemed for continued health coverage or taken as a deduction on annual income tax return.

C. Youth Activities and Services

(WIOA §108(b)(9); 20 CFR §679.560(b)(8))

Boards must include a description and assessment of the type and availability of workforce investment activities for youth in the workforce area, including activities for youth with disabilities. This description must include an identification of successful models of such activities.

Board Response- The WSGC Youth Program framework is designed to ensure effective service delivery and to maximize the participation of as many eligible youth as possible. The program serves two main categories of youth: Out-of-School Youth (OSY) and In-School Youth (ISY). Coincidentally, WSGC is the only Board area in the state to administer Communities in Schools (CIS), the nation’s leading dropout prevention program. By capitalizing on this unique affiliation, WSGC staff have a foothold in the school system to introduce the array of services available to all students, through the public workforce system. Some examples of youth activities provided through CIS and WSGC concurrently are:

- leadership development,
- community service projects,
- career exploration events and youth job fairs
- customized career pathway plan
- addressing barriers
- setting goals and related activities
- the documenting of achievements/credentials
- job shadowing,
- tutoring,
- subsidized employment,
- internships, and
- college visits.

Through the deployment of this collaborative youth services model, we are able to leverage the partner assets and provide services that ensure availability of the 14-WIOA Youth Elements and are strategically aligned with the Governor’s Tri-Agency Initiative (Education, Workforce, and Higher Education). Most importantly though, this model is ideally designed to address the unique challenges faced by in-school youth and out-of-school youth in the Golden Crescent.

Additionally, we capitalize on our Student HireAbility Navigator to ensure sufficient service levels and maximize inclusion to this population. The HireAbility Navigator working with our Youth Director and Communities in Schools staff address the 14 WIOA Youth Elements and expand our presence in area school systems to provide labor market information (LMI) in a virtual and in-class format so they are equipped with the most current information regarding post-secondary and employment opportunities upon graduation. Regarding youth with disabilities, our Student HireAbility Navigator actively partners with Gulf Bend Center, Mid-Coast Family Services and other agencies with resources and competency in serving youth with disabilities.

The chart on the following page outlines the 14 WIOA Youth Elements and the corresponding WSGC and identified partner services provided, respectively.

WIOA Youth Element	WSGC Services Provided	Partner Services Provided
Tutoring, study skills training, instruction, and evidence-based dropout prevention and recovery strategies that lead to completion of the requirements for a secondary school diploma or its recognized equivalent	Students are engaged in an interactive curriculum providing foundational skills instruction encompassing ten career & education-oriented skill and proficiency areas needed in today's workplace	Victoria Boys and Girls Club, Communities in Schools of the Golden Crescent, area ISD Counselors.
Alternative secondary school services, or dropout recovery services, as appropriate	Assessment, Identification of barrier(s) and referral	Victoria College AEC, Graduation Alliance, Community Action-Victoria
Paid and unpaid work experiences that have academic and occupational education as a component of the work experience	Paid work experience and job readiness opportunities are offered year-round to youth participants who are seeking career exploration and the development of work readiness skills	Unique Staffing, Area Employers, Communities In Schools of the Golden Crescent
Occupational skills training, which includes priority consideration for training programs that lead to recognized postsecondary credentials that align with in-demand industry sectors or occupations in the workforce area involved, if WFS determines that the programs meet the quality criteria described in WIOA §123	Eligible youth participants are connected with occupational skills training that are aligned with local target and in-demand occupations	Victoria College, ABC Mid-Coast Chapter, Safety Council of the Texas Mid-Coast, TWC Eligible Training Providers or WSGC- contracted trainings
Education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster	Remediation via AEL or Graduation Alliance	VC AEC, Graduation Alliance, Community Action, Victoria ISD, Region 3 Education Service Center
Leadership development opportunities, including community service and peer-centered activities encouraging responsibility and other positive social and civic behaviors	Integrated into work experience and Other service options, Junior Achievement	Crossroads Business and Education Connection (CBEC), Communities in Schools of the Golden Crescent
Support services, as defined in WIOA §3(59), which enable an individual to participate in WIOA activities.	Supportive services include child care, transportation assistance, work-related and training-related expenses	Appropriate partner agency according to identified need(s).
Adult mentoring for a duration of at least 12 months that may occur both during And after program participation	Integrated into work experience and other service options	Appropriate partner agency according to identified need(s).
Follow-up services for not fewer than 12 months after the completion of participation	By WIOA Youth Career Counselors	N/A
Comprehensive guidance and counseling, which may include drug and alcohol abuse counseling, as well as referrals to counseling, as appropriate to the needs of the individual youth		Mid Coast Family Services, Gulf Bend Center, and other appropriate partner agency according to identified need(s).
Financial literacy education	On-site interactive module	Money management training, CIS of the Golden Crescent, Wells Fargo Bank, CBEC
Entrepreneurial skills training	Career advising, service planning, and referral by Career Counselor	CBEC, UHV Small Business Development Center
Services that provide labor market and employment information about in-demand industry sectors or occupations available in the workforce area, such as career awareness, career counseling, and career exploration services	Identification of activity by Career Counselor, provision of local LMCI by WSGC BSU	TWC LMCI, SitesonTexas, JobsEQ-Chmura Economics
Activities that help youth prepare for and transition to postsecondary education and training	Identification of activity by Career Counselor	Communities in Schools of the Golden Crescent

D. Coordination with Secondary and Postsecondary Education Programs

(WIOA §108(b)(10); 20 CFR §679.560(b)(9))

Boards must include a description of how the Board will coordinate its workforce investment activities with relevant secondary and postsecondary education programs and activities to coordinate strategies, enhance services, and avoid duplication of services.

Board Response- In their role as facilitator in the development of strategic alliances and partnerships of workforce development initiatives, the Board continually collects and reviews data. Through this analysis, we determine our capacity to address the effectiveness of workforce development activities collectively, as well as an evaluation of the programs and services we offer. Through collaboration with our workforce system partners, including education (secondary and post-secondary) and economic development, we concentrate our efforts on outcomes that leverage regional resources.

To address the challenges we collectively identify, WSGC seeks to be a convener via Sector Partnerships, which are employer-driven and include representation from;

- Regional Business Leaders and Industry Associations
- Area School Districts, Universities, Community Colleges and Training Providers
- Regional Economic Development entities and Chambers of Commerce

The Board has regularly attended state and local meetings to enhance its capacity to meet the existing and evolving workforce challenges. Some of those include;

- Golden Crescent Regional Planning Commission-Regional Economic Development Advisory Committee (REDAC)-Executive Director serves as Committee Chair
- Victoria College Texas Reskilling and Upskilling through Education (TRUE)
- Golden Crescent Regional Talent Pipeline Summit
- University of Houston-Victoria Center for Regional Collaboration
- Future of the Region-South Texas

Through these strategic partnerships and leveraged investments, we strive to enhance system alignment and promote the shared educational and training goals for our job seekers and business customers. Furthermore, by working in close coordination with partners and positioning the Board to serve a central and facilitative role in regional partnerships helps to avoid duplication of services, thus enabling WSGC to maximize resources and its impact on the community. Through coordinated and collaborative staff training, as well as regular partner meetings with leadership and frontline staff, assists in creating strong functional partnerships that achieve desired outcomes with minimal duplication.

E. Child Care and Early Learning

(40 TAC §809.12 Board Plan for Child Care Services)

Each Board must include a description of how the Board is strategically managing child care and early learning within its workforce system to enhance school readiness and strengthen and support the child care industry.

Board Response- The Board and WSGC Child Care staff, coordinate with employers, economic development, and other industry leaders to increase the awareness and importance of early learning as a workforce and economic development tool. We support TWC’s efforts statewide and applaud the agency’s goal of improved school readiness through high-quality child care. Our commitment to TWC’s Texas Rising Star (TRS) program and other early-learning opportunities such as prekindergarten partnerships, as evidenced by the Board having recently been awarded a TWC Performance Incentive Award (PIA) for exemplary improvement in TRS service delivery.

We are committed to:

- Setting strategic goals for child care and early learning as a key economic and workforce support mechanism;
- Developing and implementing strategic quality improvement goals to enhance school readiness and;
- Strengthening and supporting the child care industry.

We have worked in partnership with TWC to conduct comprehensive reviews of the TRS certification program that has culminated in Texas Rising Star certification guideline improvements. The Commission approved rule changes for Texas Rising Star on January 5th, and the roll-out of the revisions were fully implemented April 1, 2021. We are coordinating efforts with our TRS mentors and assessors for completion of the revised training requirements to ensure all assessors complete training and attain certification prior to April 1st implementation deadline.

We are proud of our continued support to address the needs of the child care industry, including exploration of opportunities to provide assistance with business development and shared services, as well as opportunities to support professional growth and career pathways for early education.

F. Transportation and Other Support Services

(WIOA §108(b)(11); 20 CFR §679.560(b)(10))

Boards must include a description of how the Board will provide transportation, including public transportation, and other appropriate support services in the workforce area in coordination with WIOA Title I workforce investment activities.

Board Response- WSGC collaborates with the Golden Crescent Regional Planning Commission (GCRCPC) to advise and build system capacity. Through this partnership with the Board and other relevant stakeholders, members collectively review the region’s transportation system and look for additional funding to expand the services provided by GCRCPC and the Victoria Transit system. WSGC provides the group with the latest information concerning the workforce system

and offers suggestions on updating bus routes, expanding coverage to rural areas, as well as coordination of transportation for special community events such as job fairs or related events. WSGC provides transportation-related supportive services to eligible customers via gas cards, vehicle related repair assistance and through its provision of bus or alternate transportation vouchers to eligible workforce system customers for job search and other workforce-related needs.

For other appropriate support services in the Golden Crescent and in coordination with WIOA Title I workforce investment activities, WSGC provides a broad range of additional support services including emergency assistance, work-related clothing, tools, supplies, books (training related), and additional supports allowable, based upon respective program guidelines.

Likewise, WSGC develops partnerships with agencies that can supplement workforce system resources to better meet the customer's needs. Appropriate WSGC staff are familiar with area Community and Faith-Based Organizations, Partner Agencies, and other community resources and the services they provide.

G. Coordination of Adult Education and Literacy (AEL)

(WIOA §108(b)(13); 20 CFR §679.560(b)(12))

Boards must include a description of how the Board will coordinate WIOA Title I workforce investment activities with Adult Education Learning activities under WIOA Title II. This description must include how the Board will carry out the review of local applications submitted under Title II consistent with WIOA §§107(d)(11)(A) and (B)(i) and WIOA §232.

Board Response- The Board is proud of the excellent relationship they have with their partner, Victoria College Adult Education Learning (AEL) Center (TWC-funded WIOA Title II administrative and fiscal agent for provision of AEL services) and the VC AEL Director also serves on our Board, as does the Executive Director of the Victoria Adult Literacy Council (part of Crossroads Business and Education Connection-CBEC). As a result of this collaboration, we jointly convene and coordinate local and regional Adult Education and Literacy activities and ensure alignment with the broader workforce system, including WIOA Title I funded activities. Recent coordination activities include:

- **Local and Regional Planning Meetings:** WSGC coordinates planning meetings with AEL partners and Workforce staff to exchange information, plan orientations, outline training and service delivery for common customers. Meetings ensure an integrated, coordinated approach to service delivery that results in shared costs, reduction in duplication of services, and expanded enrollments of AEL customers into WIOA Title I programs.
- **Training to Support Integration:** WSGC coordinates with VC AEC to provide training regarding WIOA integration impacts to traditional AEL services. Traditional AEL services, including English as Second Language (ESL), GED, and Adult Basic Education. Integration impacts include emphasis on contextualized learning models emphasis on career exploration and preparation components, connection to Career Pathways training/education initiatives, employer community engagement, and emphasis on employment related outcome metrics.

- Workforce System Training: WSGC and VC AEL provide training to WSGC Center (WIOA Title I) staff regarding AEL programs to enhance integration. Training emphasizes the importance of the integration process and key to staff training is the understanding that basic skills are linked not only to employment outcomes but also to personal and social well-being. Also, by connecting AEL to the workforce system, the frontline, supervisory, and managerial staff have a working knowledge of the AEL programs and WIOA to ensure consistency of the message to all AEL customers.
- Labor Market Training: WSGC provides training regarding understanding local labor market trends and utilization of labor market analysis tools to workforce system staff as well as community partners. Training helps ensure customers of the broader workforce and education system are able to make informed Career Pathways decisions, including employment and education/training choices. Analysis tools highlighted include; JobsEQ, TWC LMCI, SitesonTexas and related resources.

Additionally, WSGC and VC AEL regularly engage in joint planning/integration meetings to expand system efficiencies, increase enrollments, and enhance outcomes for regional customers of both agencies. A proposed partnership includes a “second-chance” employment and training opportunity for participants with non-violent criminal offenses with the goal of not only reducing recidivism, but addressing the needs of this often difficult to serve population. Joint planning and integration emphasize effective referral and co-enrollment procedures, common assessment opportunities, shared placement responsibilities, and reporting requirements. Should another entity engage in a competitive procurement process for delivery of AEL services, the Board will identify a review team and implement the review of proposals for the local adult education competition based on Agency guidance. At a minimum this would include:

- Thoroughly describe the local application review process;
- Reference to local application and timeline associated with the review process;
- Reviewing and scoring of local application(s).

Part 6: Adult, Dislocated Workers, and Youth Services

A. Adult and Dislocated Worker Employment and Training

(WIOA §108(b)(7); 20 CFR §679.560(b)(6))

Boards must include a description and assessment of the type and availability of adult and dislocated worker employment and training activities in the workforce area. Boards must include a description and assessment of the type and availability of adult, dislocated worker and youth employment and training activities in the workforce area.

Boards must also include the list of assessment instruments (tools) used for adult, dislocated worker, and youth.

Board Response-As one of the only Boards in Texas with a full-service, one-stop, career center in most of the counties we represent, Golden Crescent Workforce Development Board is proud

that we provide the same level of customer (job seeker, employer, UI claimant) access and service across our entire service delivery area, whether metro or rural.

These centers provide access to the full range of programs offered by WSGC including WIOA Adult, Dislocated Worker, and Youth services. The full range of program offerings and services is available at all WSGC career centers, including training, employment, supportive services, and related activities. The locations operating in the Golden Crescent and offering *ALL* One-Stop and AmericanJobCenter® services are as follows:

WSGC Career Canter	County
Cuero Office 1137 N. Esplanade Cuero, TX 77954 Phone: 361.277.8870 Fax: 361.277.8340	DeWitt County
Goliad Office 329 West Franklin Goliad, TX 77963 Tel: 361.645.2703 Fax: 361.645.2221	Goliad County
Gonzales Office 1617 East Sarah Dewitt Gonzales, TX 78629 Tel: 830.672.2146 Fax: 830.672.5099	Gonzales County
Hallettsville Office 727 South Promenade Hallettsville, TX 77964 Tel: 361.798.1046 Fax: 361.798.1044	Lavaca County
Port Lavaca Office 1800 South Hwy. 35, Suite H Port Lavaca, TX 77979 Tel: 361.552.1563 Fax: 361.552.7465	Calhoun County
Victoria Office 120 South Main, Suite 110 Victoria, TX 77901 Tel: 361.578.0341 Fax: 361.572.0194	Victoria County
Yoakum Office 307 Crittenden Yoakum, TX 77995 Tel: 361.741.5100 Fax: 361.741.5102	DeWitt and Lavaca Counties

For job seekers who remain unsuccessful in finding or returning to employment and are interested in more extensive training, WSGC can provide training funds, providing federal eligibility guidelines for participation in WIOA have been established. A comprehensive assessment is the first step in determining what training activity (if any) is needed to assist the participant in determining what services are available to move them towards self-sufficiency. These comprehensive and diagnostic assessments, which include the Test of Adult Basic

Education (TABE) and Career Occupational Preference System (COPS) Interest Inventory measures an examinee's level of aptitude and interest. They are combined with an in-depth interview and evaluation to identify employment (or re-employment) barriers and corresponding employment goals. Additional WIOA services include individual career planning, which entails the development of an Individual Employment Plan (IEP) identifying (at a minimum);

- Employment Goals
- Achievement objectives
- Associated combination of services required to achieve those goals

If it is determined through this comprehensive assessment that training (or re-training) is required *and* the customer demonstrates a commitment to achieve their employment goals, then contingent upon funding availability and consistent with Program guidelines, the following training/career education services are available;

- Occupational Skills Training (short-term certificate/credential, or up to 2 years);
- On-the-Job Training (OJT);
- Apprenticeship/Pre-Apprenticeship (according to DOL and employer guidelines)
- Adult Education and Literacy (AEL) services, and
- Customized Training.

As noted previously, training funds are restricted to skills required in WSGC-approved target occupations. Once the customer has made an informed choice and an approved training program has been selected, they will be instructed to apply for admission into the training program and complete any pre-requisites (if necessary). Upon completion of the application process with the appropriate ETPS-approved training provider, the customer and WSGC Case Manager will complete a budget analysis to determine the amount of financial assistance that is required for the participant to successfully complete the course of study. In the case of OJT, the customer will be partnered with a Business Services Representative to locate an employer willing to hire the individual for a training position. Upon completion of the training, the WSGC Case Manager will work with the individual to secure employment in the occupation in which they were trained. For customers lacking a high school diploma, GED and High School Equivalency Program (HSEP) classes as well as English as a second language (ESL) services/training classes are arranged through Adult Education and Literacy or alternative high school diploma-attainment resources.

These training activities are available to *WIOA Adult, Dislocated Workers, and Youth* respectively. WSGC staff are always mindful of capitalizing on situations or opportunities where the customer may be co-enrolled in multiple programs to maximize benefits to both parties. In the event of limited funding, Workforce Solutions Golden Crescent will determine priority of service based upon the governing rules and regulations for the specific program from which the individual is requesting services. However, it is the goal of the Board to continually seek ways to improve access for *ALL* customers, to activities leading to an industry recognized credential or certificate that are "portable" and part of a clearly-defined program of study or career pathway. The Board maintains an excellent relationship with all area training providers including but not limited to:

- Victoria College
- University of Houston-Victoria
- Mid-Coast Construction Academy
- Texas A&M Engineering Extension Service (TEEX)
- Wharton County Junior College
- Delmar College
- Bee County Junior College
- Area School Districts
- Area DOL-Registered Apprenticeship (RA) Programs

B. Priority to Recipients of Public Assistance and Low-Income Individuals
(20 CFR §679.560(b)(21))

Boards must include the Board policy to ensure that priority for adult individualized career services and training services will be given to recipients of public assistance, other low-income individuals, and individuals who are basic skills deficient, consistent with WIOA §134(c)(3)(E) and §680.600 of the Final Regulations, as well as veterans and foster youth, according to the priority order outlined in the WIOA Guidelines for Adults, Dislocated Workers, and Youth. Boards must also include a list of any Board-established priority groups, if any.

Board Response-In accordance with WIOA §134(c)(3)(E) and §680.600, the Board has in place an approved WIOA Policy that provides specific guidance regarding ensuring priority for target populations. The Board’s WIOA Policy states:

“Individualized career services and training services must be given on a priority basis, regardless of funding levels; to:

- public assistance recipients;
- other low-income adults; and
- Individuals who are basic skills deficient.”

The policy is also compliant with the revised “Workforce Innovation and Opportunity Act: Guidelines for Adults, Dislocated Workers, and Youth”, updated August 2021 and effective October 1, 2021.

The Boards other target populations include:

Veterans

Veterans compose a critical part of the pool of potential employees in the Golden Crescent, but can often have unique needs for earning credentials, as well as gaining and maintaining employment when transitioning back into civilian life. Having veteran representatives in our center is the most effective approach to assess our veteran’s needs and make the appropriate referrals. The Texas Veteran’s Commission (TVC) representative works closely with Workforce Solutions Golden Crescent office staff to address the employment and training needs of our veterans. Our TVC representative covers a variety of topics ranging from employment, training,

veterans' benefits, education, and medical care and works closely with other area Veteran's service providers in the community. Also, the annual Hiring Red, White, and You (TWC and Governor's office statewide hiring campaign) is committed to serving veterans in the employment search. In addition to the employers on hand, representatives from local and federal government agencies, community service and faith-based organizations, and area training providers, meet with the veterans to discuss job or training opportunities.

The Board is privileged to serve this segment of our population and will always maintain an aggressive approach to outreaching and serving our veterans. As a result of this commitment and activities such as these, we were able to serve over 1000 veterans during PY20-22, enrolling over 95 in special programs.

We are proud of the work that we are doing in the Golden Crescent to ensure that our veterans' needs are met, striving to make their transition back into civilian life and their reconnection with workforce, as seamless as possible.

Individuals with Disabilities

As previously noted, the agency formerly known as the Texas Department of Assistive and Rehabilitative Services (DARS) was dissolved and its programs were transferred to TWC. The changes are the result of legislation passed during the 84th Texas Legislative session which places all the state's programs funded through the federal Workforce Innovation and Opportunity Act (WIOA) together under one agency. The transition resulted in the creation of TWC's "Vocational Rehabilitation" (VR) services now integrated into many WSGC office, making them true "One-Stop" centers.

Workforce Solutions staff, both locally and across the state, work to ensure a seamless coordination of employment and training services are available. Additionally, a broad range of disability awareness, accommodation, and sensitivity training has been provided to the entire staff. In late 2018, WSGC Gonzales location integrated offices with VR staff and the same colocation occurred in our Victoria Center in May 2021. Plans include eventual integration/co-location of all VR and Career Center services in the Golden Crescent.

Likewise, as previously noted, the Board's Student Hireability Navigator initiative provides support and coordination around the region to grow and improve workforce transition services offered to students with disabilities & their families. SHN serves as a vital resource and partner to enhance current programs offered by Texas Workforce Commission's Vocational Rehabilitation Services through three areas of focus:

- Focus #1 - Raise awareness of resources and activities available to students with disabilities
- Focus #2 - Increase community coordination and provide information, training, and technical assistance
- Focus #3 - Inform and engage employers to increase understanding and develop work-based learning opportunities

WSGC remains dedicated to providing outstanding service to individuals with disabilities, with the goal of service provision that is meaningful and accessible to all customers. All WSGC Centers are fully accessible and have the capabilities and technology to assist employers and job

seekers with disabilities. Centers are equipped with Telecommunications Device for Deaf (TDD) machines for the hearing impaired, closed-caption monitors, and Zoom Text software to enlarge text on computer screens. The Victoria Center, the only multi-story Center, has an elevator and wheelchair lift, for those unable to climb stairs and automatic doors at all centers.

The Center has cooperative agreements and Memorandums of Understanding (MOU's) with Gulf Bend MHMR, Mid-Coast Family Services, and various other community partners to assist in addressing the needs of the disabled population and to help ensure they achieve gainful employment.

WSGC is committed to continuing the legacy of these activities and regularly conducts capacity building and systems change throughout the Centers to ensure (and expand) universal access of the One-Stop delivery system to job seekers [and employers] with disabilities and provide enhanced, comprehensive, employment services to those customers.

Individuals with Limited English Proficiency or Emergent Bilingual Learners

TWC estimates that a large and growing population of job seekers in Texas involves individuals with limited English proficiency (LEP). The Board is continually searching for strategies to design and implement targeted adult education programs to increase employment outcomes for populations requiring workforce literacy skills. Individuals with LEP face greater challenges gaining employment and retaining employment. The Golden Crescent region has a very diverse population with approximately 38% of the population speaking a language other than English in the home. The Board has a LEP Policy to provide an opportunity for emergent bilingual learners to learn English or improve their fluency in the workplace. All program-eligible job seekers are evaluated for English Proficiency and [based on their results] are being referred to their local literacy council for English as a Second Language (ESL) classes and integrated vocational skills-based language training to improve those skills.

For customers with low literacy scores, WSGC is currently partnering with the Victoria College Adult Education Center (VC AEC) and Victoria Adult Literacy Council (a component of Crossroads Business and Education Connection-CBEC). With the addition of Adult Education and Literacy (AEL) program services to TWC, WSGC is charged with exploring new strategies to engage training providers and encourage adults toward literacy advancement, and successful employment leading to self-sufficiency. AEL activities represent an opportunity to incorporate relevant labor market and career information to assist with decisions on directing efforts toward curriculums that promote the occupational needs in the Golden Crescent. To increase adult and youth participation, WSGC and the VC AEC, regularly conduct outreach sessions in Victoria and our rural areas. Additionally, the AEC Director is also a current and active member of the Board and has periodic meetings with workforce center staff to facilitate new ideas and strategies for serving this population. WSGC will continue to integrate English literacy and related AEL activities, with workforce preparation, secondary education, and occupational skills training.

Homeless Individuals

WSGC will continue to collaborate with groups involved in the planning and provision of services to the homeless and those at risk of becoming homeless including, for example, the Victoria Homeless Coalition and other area agencies providing these critical services.

Ex-Offenders

WSGC will continue to provide ex-offenders with access to employment and vocational training services. Fidelity bonding for employment is offered and marketed for individuals in the ex-offender population. Collaborative efforts to serve this population include staffing to assist with the reintegration of offenders at the TDCJ Stevenson Correctional Facility in Cuero and other locations. Additionally, WSGC has tenured staff familiar with the former “Project RIO” (Re-Integration of Offenders) and can apply that experience to serving individuals with this barrier.

Part 7: Fiscal Agent, Grants, and Contracts

A. Fiscal Agent

(WIOA §108(b)(15); 20 CFR §679.560(b)(14))

Boards must include identification of the entity responsible for the disbursement of grant funds described in WIOA §107(d)(12)(B)(i)(III), as determined by the CEOs or the governor under WIOA §107(d)(12)(B)(i).

Board Response- Golden Crescent Workforce Development Board, dba Workforce Solutions Golden Crescent, is responsible for the disbursement of grant funds for the 7 county Golden Crescent region, as described in WIOA §107(d)(12)(B)(i)(III), and as determined by the chief elected official, or the governor under WIOA §107(d)(12)(B)(i). The TWC Agency Board Agreement (ABA) identifies Golden Crescent Development Board as the grant recipient.

Workforce Solutions Golden Crescent Administrative (Corporate) Office is located at 120 South Main, Suite 501, Victoria, TX 77901. WSGC is designated by the IRS as a non-profit, tax-exempt 501(c)(3) organization that serves Calhoun, DeWitt, Goliad, Gonzales, Jackson, Lavaca and Victoria Counties in Texas.

B. Sub-Grants and Contracts

(WIOA §108(b)(16); 20 CFR §679.560(b)(15))

Boards must include a description of the competitive process that will be used to award the sub-grants and contracts for WIOA Title I activities.

Board Response- Procurement is the process and procedures utilized to obtain goods and services from the marketplace. WSGC ensures that the procurement of all goods and services is conducted, to the maximum extent practical, in a manner providing full and open competition consistent with applicable administrative requirements. The estimated amount of award or contract determines the procedure used to competitively procure goods and services. This process includes standards of conduct and detailed procedures for both small and large procurements.

No employee, officer, or agent of WSGC may participate in the selection, award, or administration of a contract that is supported by federal or state funds if a conflict of interest or apparent conflict of interest would be involved.

WSGC standards of conduct prohibit the solicitation and/or acceptance of gratuities, favors or anything of monetary value by an officer, employee, or agent of WSGC from a bidder or sub-recipient. Every reasonable course of action shall be taken to maintain the integrity of the expenditure of public funds and to avoid any favoritism or questionable conduct. Any situation is avoided which suggests that a decision was influenced by prejudice, bias, special interest, or personal gain. WSGC Board Members, WSGC staff, or agents involved in the procurement process are prohibited from accepting gifts, favors, or anything of monetary value from the existing or potential sub-recipients or contractors. In regard to the competitive process used to award sub-grants and contracts, a brief overview of the procedures used for both large and small procurements is highlighted in this response.

The following procedures are followed based on the type of procurement needed:

SMALL PURCHASE – A relatively simple, informal purchases with an aggregate cost of not more than \$150,000.00.

In-person, online, or telephone bids are solicited/acquired and documented from a minimum of three responsive providers. The WSGC *Cost Estimate Sheet* found on the back of the *Purchase Requisition* is completed to document the selection process. If a bidder whose price is higher than others is selected, justification will be documented on the *Cost Estimate Sheet*. The *Purchase Requisition* is submitted to the Executive Director for approval and processing.

Procurements of less than \$3000.00 (Micro-Purchase) in the aggregate may be purchased without competitive procurement with the approval of the Executive Director.

Steps to be taken by WSGC for Small Purchases:

Step #	Step
1	Determine the need for a specific good and/or service
2	Research estimated cost of optimum good and/or service
3	Obtain approval to purchase good, service, and or property
4	Determine proximate desired specifications
5	Determine viable market for the solicitation of the desired item, including small, minority, women-owned, and HUB businesses. Develop Distribution Plan.
6	Call potential bidders/suppliers to obtain additional information about the good/service prior to conducting the procurement
7	Prepare phone quote forms prior to making actual calls for price quotes.
8	Call qualified and eligible bidders in the market determined at step 6
9	Complete a quotation form for each bidder contacted
10	Conduct a comparative analysis of the phone bids and specification information and select the best bid.
11	Complete and submit Purchase Requisition to obtain approval to purchase good, service, and or property from Executive Director
12	Notify selected bidder

LARGE PURCHASE -The chart on the following page provides an overview of the WSGC process for procurements in excess of \$150,000.00 using the RFP process.

Item	Steps	Performing Party
Purchase Request	Determine need for procurement; Conduct price analysis; Complete and submit <i>Determination of Need/Procurement Request Form</i> to ED for approval	Procurement, Fiscal or Technology staff, as appropriate
Public notice (publicize RFP)	Develop schedule of procurement activities Develop Public Notice with all required elements (15.08g of TWC FMGC) Transmit to Texas Register Publish in appropriate newspapers Submit Purchase Requisition for any related costs Develop Distribution Plan from master list, telephone directories, and other resources, including HUBs Mail Public Notice to appropriate individuals on Bidders List	Procurement, Fiscal or Technology staff, as appropriate
Bidders' conference	Determine need for Bidders' Conference Develop presentation Set-up sign-in sheet Start on time Orient attendees (agenda topics, conference structure, including Q&A during and after the conference) Make presentation Finish on time	Procurement, Fiscal or Technology staff, as appropriate Executive Director Director/Finance Monitor Subject-expert staff Contractor staff, if needed
Bidders' questions after bidders' conference	Respond to questions by date established during bidders' conference Forward Q&A to all parties receiving an RFP Include with transmittal of RFPs disseminated thereafter	Procurement, Fiscal or Technology staff, as appropriate
Proposals received	Date stamp each proposal received from bidders Log package Give receipt for hand-delivered packages upon request Set-up a "secured" procurement file	Administrative Assistant or back-up staff Procurement, Fiscal or Technology staff, as appropriate
Proposal evaluation	Establish evaluation team Orient evaluation team: Confidentiality, Objectivity, Conflict of interest, Evaluation period, Scoring methodology, Ground rules on discussion between evaluators, Central point for securing proposal during and after evaluation period, Evaluation team leader, Tallying scores Score proposals Submit scoring sheets to Team Leader	Procurement, Fiscal or Technology staff, as appropriate Evaluation Team Team Leader
Presentation of scores to Executive Director	Aggregate bidders' scores Present results of proposal review w/o recommendations to Executive Director	Evaluation team leader Procurement/contracting officer

Presentation of scores to Board for selection	Scoring results reviewed by ED Scoring results forwarded to Committee, if appropriate Committee recommendation forwarded to Board, if appropriate Selection made & Draft/send notification letter to selected/non-selected bidders	Executive Director Procurement/contracting officer
---	---	---

All procurement records are maintained for three years following the annual audit or the resolution of questioned costs. Subcontractors will be notified that they shall adhere to the same record retention requirements. If for some reason they cannot do so, all records will be turned over to the Board at the end of the contract period.

Once procurement is completed, a *Procurement File Checklist* is used to ensure that the procurement file is adequately documented.

Procurement File Checklist

- needs assessment determination
- procurement method selected
- procurement authorization(s)
- public media advertisement
- Request for Proposal (RFP)/Invitation for Bids (IFB) document
- proposals received
- rating criteria
- completed staff and/or Board evaluation forms
- independent cost estimates
- cost/price analysis forms and cost reasonableness determination
- notes and other documentation concerning negotiations
- notice of award/non-selection
- fully executed contract, including amendments/modifications
- contract performance evaluation
- signature authorities
- general correspondence related to the specific procurement action
- required reports
- documentation related to disputes, protests, and claims

Part 8: Performance

A. Board Performance Targets

(WIOA §108(b)(17); 20 CFR §679.560(b)(16))

Boards must include a description of the local levels of performance negotiated with TWC and the CEOs consistent with WIOA §116(c), to be used to measure the performance of the area and to be used by the Board for measuring the performance of the local fiscal agent (where

appropriate), eligible providers under WIOA Title I subtitle B, and the one-stop delivery system in the area.

Board Response-To further ensure employer and job seeker needs are met, WSGC performance strategies aim to strengthen the alignment of TWC-Contracted common performance accountability measures with requirements governing the one-stop delivery system, consistent with WIOA §116(c).

BCY23 Performance Measures for WSGC are detailed in the following chart.

Workforce Innovation & Opportunity Act (WIOA) Performance Measures	
1	Adult-Employed Quarter 2 Post Exit
2	Adult-Employed Quarter 4 Post Exit
3	Adult-Credential Rate
4	Adult-Median Earnings Quarter 2 Post Exit
5	Adult-Measurable Skills Gain
6	Dislocated Worker- Employed Quarter 2 Post Exit
7	Dislocated Worker-Employed Quarter 4 Post Exit
8	Dislocated Worker-Credential Rate
9	Dislocated Worker-Median Earnings Quarter 2 Post Exit
10	Dislocated Worker-Measurable Skills Gain
11	Youth-Employed/Enrolled Quarter 2 Post Exit
12	Youth-Employed/Enrolled Quarter 4 Post Exit
13	Youth-Credential Rate
14	Youth-Measurable Skills Gain
15	All Participants-Employed/Enrolled Quarter 2 Post Exit
16	All Participants-Employed/Enrolled Quarter 2-Qrt 4 Post Exit
17	All Participants-Credential Rate
18	All Participants-Median Earnings Quarter 2 Post Exit
Other TWC Board Contracted Measures	
1	Claimant Reemployment within 10 weeks
2	Number of Employers Receiving Workforce Assistance
3	Choices Full Work Rate
4	Avg. Children Served Per day

For any measures that are still pending final target resolution by TWC, once established and contracted, they will be automatically incorporated by WSGC. Under WIOA Title I subtitle B, the Board is also responsible for establishing Eligible Training Provider (ETP) Measures. Eligible Training Providers must adhere to standards articulated in Texas’ WIOA ETPS Certification System Notification of Board Performance Requirements.

The Board [in open meeting] has adopted these local ETPS performance measures in accordance with TWC-recommended thresholds:

- 60 % Program Completion Rate (ALL)
- 60% Entered Employment Rate (ALL)

Regarding the one-stop delivery system, the Board establishes Performance and Expenditure Measures with WSGC contractor during contract negotiations. The negotiated benchmarks facilitate meeting of TWC performance and expenditure benchmarks for which WSGC is

responsible. The Board performs contractor oversight to ensure that all benchmarks are adequately met by reviewing The Workforce Information System of Texas (TWIST) and Work in Texas (WIT) reports as well as ad hoc data analysis. Failure to meet acceptable measures of performance requires the Board to implement Technical Assistance Plans, Corrective Action Plans and or up to including sanctions for continued low performance.

Part 9: Training and Services

A. Individual Training Accounts (ITAs)

(WIOA §108(b)(19); 20 CFR §679.560(b)(18))

Boards must include a description of how training services outlined in WIOA §134 will be provided through the use of ITAs, including, if contracts for training services will be used, how the use of such contracts will be coordinated with the use of ITAs under that chapter, and how the Board will ensure informed customer choice in the selection of training programs, regardless of how the training services are to be provided.

Board Response- WIOA §134 provides the framework for a national workforce preparation and employment system designed to meet the needs of both the nation’s businesses and job seekers and those who want to further their careers. Board policy is based on the following elements:

- Customers should have choices in deciding the training program that best fits their needs and the organizations that will provide that service. They should have control over their own career development.
- Customers have a right to information about how well training providers succeed in preparing people for jobs. Training providers will provide information on their success rates.

The ITA is an account established by the Board on behalf of an eligible individual. Customers seeking to access training services complete a comprehensive assessment to determine the need, interest and eligibility for training services, and are provided with a full orientation and coaching regarding selection of an appropriate training provider. Information provided to customers seeking to access an ITA includes provider/program performance data, training cost, accessibility, and relevant labor market information and Career Pathway information. ITAs are funded with Youth, Adult and Dislocated worker, and Trade Adjustment Act funds authorized under Title I of WIOA. Individuals may use ITAs in exchange for training services associated with the WSGC Targeted Occupation list (contained herein). ITAs can only be issued for training providers on the approved list of Eligible Training Providers maintained by TWC. A document detailing the amounts, customer name, start and ending dates will then be provided to the customer prior to their initial enrollment into school.

B. ITA Limitations

(20 CFR §663.420)

Boards may impose limits on the duration and amount of ITAs. If the state or Board chooses to do so, the limitations must be described in the Board Plan, but must not be implemented in a manner that undermines WIOA’s requirement that training services are to be provided in a manner that maximizes customer choice in the selection of an Eligible Training Provider. Exceptions to ITA limitations may be provided for individual cases and must be described in Board policies.

Board Response-Board policy currently dictates that the amount of funds authorized for an ITA be commensurate with the training provider’s cost (tuition and fees as reflected in the ETPS) and other **required** related program expenses (books, supplies, equipment, tools, uniforms) for the current program year. As a general rule, the Board imposes a maximum amount of time allowed for the use of an ITA as two (2) program years, barring extenuating circumstances. The Board of Directors at the April 29, 2021 meeting imposed a financial limitation capped at a maximum of \$10,000.00 per participant. This applies to any training course(s) or programs of study, with the caveat that the training participant utilize their Pell Grant as the **first** funding mechanism (if eligible and awarded). The Executive Director maintains authority to consider exceptions on a case-by-case basis. Adherence to this policy, allows the Board to maximize funding opportunities for more eligible participants, as well as ensuring fidelity to the spirit and intent of WIOA training.

Part 10: Apprenticeship

A. Registered Apprenticeship Programs

Boards must include a description of how the Board will encourage Registered Apprenticeship programs in its workforce area to register with the Eligible Training Provider System in order to receive WIOA funding.

Board Response-Registered Apprenticeship is an industry-driven model that combines on-the-job learning with job-related instruction. As an “earn and learn” model, apprentices are employed and earn wages from the first day on the job. Apprenticeship is a flexible training strategy that can be customized to meet the needs of any business. Nationally, there are currently more than 1,000 occupations including careers in;

- health care,
- information technology,
- transportation, and
- energy,

in which apprenticeship is used to meet business needs for qualified workers. By using apprenticeship as a workforce strategy in the Golden Crescent, WSGC will contribute to higher performance outcomes in employment, retention, earnings, and credential attainment.

WIOA includes several changes that strengthen Registered Apprenticeship (RA) as a resource, a training strategy, and as a partner in the workforce system.

- Registered Apprenticeship programs are on ETP List-All Registered Apprenticeship programs, by virtue of their registration, are approved for the Eligible Training Provider List and thereby eligible to receive federal workforce funding as pre-approved training providers. This is one of the most important changes in WIOA, as it expands opportunities for job seekers and for the workforce system to use WIOA funds for related instruction and other apprenticeship costs.
- Promoting work-based learning to meet employer needs for skilled workers WIOA promotes greater use of work-based learning and a stronger emphasis on business services. WIOA provides for increased reimbursement rates for employers for on-the-job training (OJT). OJT can be used to support apprenticeship programs, and this change promotes the greater use of apprenticeship as a strategy to address the needs of both employers and job seekers.
- Supporting career pathways for youth through apprenticeship WIOA supports apprenticeship as a workforce strategy for youth. The law cites pre-apprenticeship activities and work-based learning among the youth program elements. WIOA also recognizes apprenticeship as a career pathway for Job Corps students and supports coordination of the Job for the Future/Youth Build program with pre-apprenticeship and apprenticeship programs.

Using the apprenticeship model as a key strategy in meeting the needs of business, the increased emphasis on work-based learning and business engagement in WIOA provides a new opportunity for the workforce system to integrate apprenticeship into its business services. Since employers are at the center of the model, apprenticeship automatically brings industry to the table. Therefore, apprenticeship aligns perfectly with sector strategies, industry partnerships, and other investments in meeting the needs of the business community.

WSGC encourages Registered Apprenticeship programs through collaboration with area educational institutions and employers to;

- identify apprenticeship programs currently operating that can be registered with the Eligible Training Provider System (ETPS) and,
- inventory current pre-apprenticeship programs or related initiatives that can be scaled up into full registered apprenticeship programs.

In late 2018, the Board was awarded a Texas Industry Partnership (TIP) Grant in the amount of \$45,865.00 to assist in the creation of a DOL-Registered Apprenticeship and Pre-Apprenticeship Program for Construction trades, developed by Associated Builder and Contractors (ABC) Texas Mid-Coast Chapter and specifically targeting the occupations Plumber and Electrician. We worked collectively with secondary and post-secondary training providers to develop the National Center for Construction Education & Research (NCCER) curriculum that is utilized at the Mid-Coast Construction Academy and the Apprenticeship and associated Pre-Apprenticeship serve the training needs of both secondary (high school juniors and seniors) and post-secondary students.

Upon advancement of the first cohort to the next phase of the Apprenticeship the Board applied for and was awarded a subsequent TIP Grant for \$56,000.00 as part of our Workforce Innovation and Opportunity Act (WIOA) Alternative Funding for Statewide Activities (WAF) contract, to offset the costs associated with continuation of the program. In June 2021 we were awarded a \$290,000.00 High Demand Job Training (HDJT) Grant with the Victoria Sales Tax Development Corporation which provided additional support to the MCA Apprenticeship and Pre-Apprenticeship program.

Additionally, Dow-Seadrift Operations, annually has Apprenticeship opportunities available. We are working with Dow and area ISD's to identify apprentices in the fields of Process Technician and Electrical Technician. To further promote advantages of work-based learning, the Board and WSGC BSU engage with area partners to educate employers on the benefits of RA programs.

B. Apprenticeship Texas

Boards must include a description of the Board's strategy and commitment to support Apprenticeship Texas efforts across the state, as applicable.

Board Response-As noted in the previous response, WSGC is an active participant in promoting Apprenticeship efforts, including the TWC Apprenticeship Texas program. In addition to the outreach and marketing activities previously listed, WSGC will also support the effort by:

- Include Apprentice Texas logo and hyperlink on WSGC website;
- Provide assistance to local entities, including industry leaders, economic development organizations, etc. in the development of registered apprenticeship training programs in the service area; and
- Develop outreach strategies for both traditional and non-traditional industries.

We will continue to promote that TWC, as authorized in Texas Education Code Chapter 133, grants funds to local public educational institutions to support the costs of related classroom instruction in registered apprenticeship training programs. Local education agencies act as fiscal agents for registered apprenticeship training programs.

To date, we have received two Texas Industry Partnership (TIP) Grants totaling approximately \$110,000.00 and in early 2023, will be applying for a third TIP grant for another \$110,000.00, to provide additional support to a local DOL-Registered Apprenticeship (RA) Program, Mid-Coast Construction Academy (MCA). As previously noted, this academy serves the training needs of area secondary and post-secondary students and is also a viable career pathway for dislocated workers, non-custodial parents, AEL participants, ex-offenders, and other populations we serve. At its entry-level, a trainee can attain a short-term National Center for Construction Education and Research (NCCER) certificate that is industry-validated and recognized nationwide. A pipeline of younger workers being trained both on-the-job and in the classroom, creates a steady flow of students at the secondary and post-secondary level. Likewise, this model allows employers the opportunity to make a positive impact by contributing to the work-based component (via their jobsites) towards addressing their worker shortage. This is just one example of our ongoing efforts to maximize growth and encourage coordination with local industry and

workforce partners to develop new RA training programs and expand existing RA training programs.

Additionally, for interested parties reviewing this Plan, to qualify for funds, apprenticeship training programs and apprentices must be registered with the U.S. Department of Labor Office of Apprenticeship. If you are an employer, local education agency, or apprenticeship training program seeking information regarding funding for related classroom instruction for adults in registered apprenticeship training programs, contact the Texas Workforce Commission at apprenticeship@twc.state.tx.us.

Part 11: Public Comment

Boards must include a description of the process used by the Board, consistent with WIOA §108(d), 20 CFR §679.550(b) and §679.560(b) and (e), to:

- *make copies of the proposed local plan available to the public through electronic and other means, such as public hearings and local news media;*
- *include an opportunity for comment by members of the public, including representatives of business, labor organizations, and education;*
- *provide a 30-day period for comment on the plan before its submission to TWC, beginning on the date that the proposed plan is made available, before its submission to TWC; and*
- *submit any comments that express disagreement with the plan to TWC along with the plan.*

Board Response- The Board placed a Public Notice in the Texas Register on January 27, 2023 advising that the Golden Crescent Workforce Development Board Strategic and Operational Plan 2021–2024 2-Year Plan Modification, was available for viewing and public comment on the Board’s website at www.gcworkforce.org and at its physical location, 120 South Main, Suite 501, Victoria, TX 77901. Public notice was also placed in the classified/legal section of the Victoria Advocate on the same date which also ran concurrently in their online version at victoriaadvocate.com. Both formats advised of viewing availability and solicitation of comments and input.

Appendix: Demonstrating Alignment with Texas’ Strategic Plan for the Workforce System

A. Texas Workforce Investment Council Requirements

B. Local Workforce Development Board Strategic Planning

Board Response- The Texas Workforce Investment Council (TWIC) is charged under Texas Government Code §2308.101(5), 2308.302(a), and 2308.304(a)(b)(4), and the Workforce Innovation and Opportunity Act of 2014 (WIOA) (Public Law 113–128) with recommending the

plans of Local Workforce Development Boards (Boards) to the Governor for consideration for approval. TWIC reviews each Board Plan to ensure that local goals and objectives are consistent with the statewide goals and objectives in the system plan, The Texas Workforce System Strategic Plan FY 2016–FY 2023 (2020 Update), which can be found at <https://gov.texas.gov/uploads/files/organization/twic/System-Strategic-Plan-Update.pdf>.

Additionally, state law charges TWIC with reporting annually to the Governor and to the Texas legislature on the implementation of the system’s strategic plan and monitoring the operation of the state’s workforce system to assess the degree to which the system is effective in achieving state and local goals and objectives. Therefore, TWIC also reviews Board Plans and plan modifications to determine each Board’s progress in implementing strategies that align with the strategic plan for the Texas workforce system. Following consideration for approval at a regularly scheduled quarterly meeting, TWIC recommends the Board Plans to the Governor for consideration for approval. Boards’ responses to the following planning elements are reviewed by TWIC for alignment and are the basis for recommending approval.

In response to the TWIC requirements and the Texas Workforce System Strategic Plan FY 2016–FY 2023 (2020 Update) and the additional TWIC mandates outlined in WD Letter 18-22, Attachment 2, that identify the following four sections below, the Board has described the four system goals that address critical, high-priority system issues for the state. **For each goal, we have described one significant Board strategy or initiative that fulfills the intent of the goal.**

C. Focus on Employers

By accessing critical education and labor data sets, employers can more easily find and plan for skilled workers to meet their needs in both the immediate timeframe and the future. Through greater engagement with employers, education, and training providers can better design career and technical education content and delivery options that are more aligned with industry needs. Providers can make adjustments in program content to benefit employers and students, as well as address both state and regional economic needs.

Describe how your local Board has improved employer engagement and efforts to collaborate with any other entities that require input, participation, and/or partnership with employers. Specifically, describe how you coordinate efforts to gain more comprehensive insight on employer needs while reducing the demand on the employers who would otherwise be responding to multiple requests. Identify the primary outcomes and, where relevant, list key entities involved and type of information requests for each entity.

Objective #1

Facilitate development and alliances with partners/stakeholders (businesses, industry associations, economic development entities, chambers of commerce, etc.) within ‘Target Industries’ to identify market challenges and opportunities.

Objective #2

Increase services to employers that are value-added, efficient, and adaptable to meet the varied needs and expectations of each respective industry.

Objective #3

Increase marketing and promotion of available services via WSGC's Business Services Unit and various media outlets.

Objective #4

Monitor, evaluate, and continuously strive to improve the quality and quantity of services available to our customers (employers and job seekers).

Objective #5

Continue to work with rural counties to assist with employer retention and expansion strategies and to provide information about any opportunities for grant assistance i.e. Texas Industry Partnership (TIP) Grant Skills Development Fund (SDF) grants, High Demand Job Training (HDJT) Grants, Jobs and Education for Texans (JET) Grant, etc.

Initiative: As we learned from the recent 2022 Town Hall on Registered Apprenticeship expansion, the Department of Labor (DOL) and Texas Workforce Commission (TWC) are very interested in promoting more work-based learning and on-the-job training opportunities, particularly apprenticeships, so that participants can earn a wage while simultaneously attending classroom training. Following the actions of the 85th Texas Legislature to align Chapter 837 of TWC's rules with Chapter 133 of the Texas Education Code (enacted by House Bill 2790) more funding for certain apprenticeship training programs was approved. In the summer of 2018, we actively and aggressively began applying for any type of grant that could support any Registered Apprenticeship Programs (RA) in our area. Meanwhile, the local chapter of Associated Builders and Contractors (ABC) and their Board of Directors worked to create the Mid Coast Construction Academy (MCA) making them eligible to receive grant funds as well (either with the Board or MCA acting as fiduciary). Later that year, the Board was awarded a Texas Industry Partnership (TIP) Grant in the amount of \$45,865.00 to assist in the creation of a DOL-Registered Apprenticeship and Pre-Apprenticeship Program for Construction trades, developed by ABC and specifically targeting the occupations Plumber, Electrician, and Heating, Ventilation and Air Conditioning (HVAC). We worked collectively with secondary and post-secondary training providers to develop the National Center for Construction Education & Research (NCCER) curriculum that is utilized at the Mid-Coast Construction Academy and as noted, the Apprenticeship and associated Pre-Apprenticeship serve the training needs of both secondary (high school juniors and seniors) and post-secondary students. The results have been phenomenal so far and in fact, the academy in its first year had over 90% of current participants receive NCCER certification and many of those are continuing their apprenticeship journey.

As hoped for and envisioned by all parties, the infusion of these new funds has also been instrumental in not only maintaining the program, but expanding it as well, even amidst a global pandemic. Beyond just serving area HS students, this apprenticeship provides training options/career pathways for many of our program participants as well, including; dislocated workers, non-custodial parents, foster youth, WIOA In-School Youth/Out-of-School Youth, Adult Education participants, ex-offenders, and other populations regularly served in our career centers. At the entry-level, a trainee can attain a short-term NCCER certificate that is industry-validated and recognized nationwide and upon completion, a trainee is earning wage and can achieve journey-level status in a skilled trade. Moreover, since Workforce Development Board and Contractor staff were involved in the creation of the academy, we take a very active role in

the promotion and recruitment to all students of all genders, ethnicities, and ages including those historically underrepresented, especially in the construction trades. Likewise, based on the recruitment activities of all entities (MCA, school districts, Workforce Solutions Golden Crescent), projections of career and technical education (CTE) and RA program referrals, the data confirms the academy will have a consistent flow of participants for program sustainability.

While the training academy has had a very successful first four years, we are continually working to expand Registered Apprenticeship opportunities throughout the Golden Crescent. Since the last plan submission, the Board was awarded a \$290,000.00 High Demand Job Training (HDJT) Grant in June of 2021 to further fund RA expansion at MCA. In October 2022, we met with City of Victoria officials to discuss the possibility of a second HDJT grant totaling \$300,000.00 and are in the process of submitting that application as well as a third TIP grant at the time of this writing (January 2023). We are grateful for these TIP and HDJT grant funds and their usefulness towards addressing the critical shortage both in our area and statewide with a talent pipeline that is working to meet industry needs (current and future). While we are all very pleased with the results so far, we look forward to all the possibilities and opportunities available from TWC and other partners, to assist both trainees and employers throughout our region.

These are just some of the many examples of the Board's commitment to accelerating employment and improving efficiencies through shared resources (public and private). This coordination and leveraging of resources, creates funding opportunities for job training that not only serve the needs of all stakeholders, but addresses the critical labor needs of our regional employers.

D. Engage in Partnerships:

Through collaborative and transparent processes, partners focus on outcomes that improve the employability of all program participants—from across a wide spectrum of capabilities and experiences—to meet employer needs. The leveraging of partnerships to enhance system alignment and outcomes depends on trust, a culture of collaboration both within and external to the workforce system, deep working relationships, and technical capacity to communicate to share needs, data, and information. Partnerships can provide for common planning, intake, and reporting on outcomes, as well as ensuring a “no wrong door” approach to the provision of workforce programs and services.

Please describe your primary (top) partnerships, how you use them to address key strategies in your plan, and the significant outcomes and progress related to the partnerships. In addition, specifically describe partnerships that foster innovation and improved participant engagement and outcomes in workforce development.

Objective #1

Continue to extend and maintain support for workforce development through formalized and long-term efforts aimed at strengthening communication between employers, educational institutions, service providers, and other relevant partners and stakeholders.

Objective #2

Leverage PK-16 education in the region to improve workforce development and increase the number of trained (or trainable) workers in the area.

Objective #3

Facilitate the development of strategic alliances and partnerships in support of workforce development initiatives.

Objective #4

Work with internal partner Texas Veterans Commission (TVC) and local and state Veteran’s organizations to expedite the transition of returning veterans into the workforce and increase job placement in the civilian sector.

Objective #5

Develop Memorandums of Understanding (MOU) with partner agencies to leverage available resources (financial and co-location of assets).

Initiative: In Spring 2021, the Board worked with the Victoria Sales Tax Development Corporation (VSTDC) on submission of a \$290,000.00 High Demand Job Training (HDJT) to TWC. The application was approved and funded by TWC in June 2021 and successfully completed on December 31, 2022. Likewise, we are in the process of applying for a second HDJT grant in January 2023 for ~\$300,000.00 to expand training capacity and the number of work-ready individuals. Both proposals included partnering with three highly respected training entities, Victoria College (VC), Victoria ISD (VISD), and Mid Coast Construction Academy (MCA) that collectively operate in each county that Workforce Solutions Golden Crescent (WSGC) serves. Moreover, their projects address training shortages in targeted and demand occupations from a regional perspective and designate funds to a mix of HS (public and private), college students, and adults enrolled in Department of Labor Registered Apprenticeships and Pre-Apprenticeships and other classroom-based training program. Perhaps equally important, is that this entire collaboration (VSTDC, VC, MCA, VISD, WSGC) reflects the willingness of the City of Victoria’s civic, business, and education leaders to truly invest in the economic vitality of its community and neighbors by supporting these types of initiatives. We recognize these partnerships and the resulting key strategies in our plan, can and have, resulted in truly significant outcomes and progress, fostering innovation and improved participant engagement and outcomes in workforce development in the Golden Crescent.

E. Align System Elements

By improving transitions, aligning programs, and ensuring portability and transferability, Texas improves access and the ability of all participants to complete programs of study, earn credentials, transition to further education, and gain critical employability skills. Texas employers are better positioned to find and hire the employees they need through an enhanced education and training pipeline.

Please describe alignment efforts and the status, outcomes, and plan for continuous improvement of system alignment in your region. In the description, include barriers, considerations, and proposed actions to overcome the barriers.

Objective #1

Improve the system's ability and *adaptability* to respond in a meaningful way to workforce problems, with workforce *solutions* by;

- Effectively integrate planning initiatives that require partner coordination to ensure alignment.
- College and career readiness is achieved by availability of both academic courses and rigorous career technical education courses to support all students through a continuum of choices (two- and four-year degrees, apprenticeship, and military).
- Improve program and initiative alignment to ensure seamless educational and career transitions through coordinated and integrated planning.
- Increase awareness and educate middle and high school counselors to create a secondary school culture where all students and parents understand the wide range of career and educational choices, including Programs of Study and Industry-Based Certifications.
- Expand and integrate middle skills training to meet current and future employer demand.
- Ensure veterans have programs, products, and services to accommodate their needs to enter the workforce and necessary to meet current and future employer demand.
- Enhance planning and collaboration to achieve alignment across workforce system components to meet employer and community needs.
- Programs and services must be aligned with employer needs.

Objective #2

Monitor, evaluate, and continuously strive to improve the quality and quantity of services available to our customers (employers and job seekers).

Objective #3

Address all WIOA defined barriers to employment through Adult, Dislocated Worker, and Youth program activities and partner with community program providers to enhance the skill level and earnings potential for participants with significant barriers to employment.

Objective #4

Work with TWC, AEL, and Vocational Rehabilitation partners to consolidate intake, referral, and service strategies that focus on training and employment.

Initiative: Workforce Development, Adult Education and Literacy (AEL) and Vocational Rehabilitation (VR) are key partners in addressing the business talent and labor needs of their communities. To accurately determine those needs they collectively assess and identify skills gaps and other training needs and services to prepare job seekers or an employer's existing workforce for success. We strive to collectively present a common, unified front as workforce development services available through WSGC, VR, and AEL. These include services to businesses, as well as job seekers being served by either WSGC or our AEL/VR customers or consumers. We've developed detailed interagency agreements (MOUs/MOAs), a cross agency point of contact both for business services and job seeker services and have an existing referral and reverse referral system in place. Likewise, key frontline and operational staff meet regularly, especially in instances of partner initiatives; Summer Earn and Learn (SEAL), Paid Work Experience (PWE) or other projects that require continuous collaboration. Otherwise, all interagency staff strive to meet quarterly to assess operational effectiveness and adapt service

delivery procedures accordingly (of necessary). Together, we are constantly cross-referencing the list of job postings with the skills of our participants to determine employment suitability. We are regularly working with employers that would be willing to hire an UI claimant, LTU, VR consumer, NCP-Choices, AEL participant, etc. candidate if the job seeker didn't have the necessary skills, then upgrading via most appropriate (allowable) funding stream, always with the goal of matching trainees as quickly as possible with employment or advancement opportunities. As a result of our collective efforts and partnership we were awarded the Board/AEL/VR Collaboration Award at the 2019 TWC Annual Conference and VC AEL being awarded a Co-Enrollment award at the recent 2022 TWC Annual Conference.

F. Improve and Integrate Programs:

Accelerate employment and improve efficiencies through shared resources that can be leveraged to create new, relevant, and innovative opportunities that serve the needs of all stakeholders. By addressing high-priority programmatic needs through an integrated strategy, decision-making at the system, partner, and participant levels is improved and system service delivery is enhanced.

Please describe local efforts to integrate processes and share resources across programs in your region. Identify efficiencies realized and improved participant outcomes as a result. Describe how this work can be leveraged to create new, relevant opportunities that serve the needs of all stakeholders.

Objective #1

Work with employers, educational institutions and regional partners to identify clear pathways or “mapping” of knowledge, skills and abilities that illustrate the steps necessary to move from one educational or employment milestone to another.

Objective #2

Increase the amount of investment (according to each revenue stream) dedicated to direct customer services (decrease ‘cost-per-participant’).

Objective #3

Increase the number of customers receiving and completing training/employment activities.

Objective #4

Annually, or as conditions warrant, review programs, services, and method of delivery for cost effectiveness and overall impact.

Objective #5

Continually explore and pursue options (grants and related alternative funding opportunities) to supplement WSGC budget of State and Federal monies received as a 501c3.

Objective #6

Work with area partners to continuously improve the referral system to help remove obstacles and barriers to success, to promote successful performance on the job and in school.

Objective #7

Work with the area school districts, 2-year and 4-year post-secondary schools to identify, develop, and support programs and methods that maximize attainment of an industry-recognized degree, license, or certification at all educational levels.

Initiative: According to the Board’s By-Laws, the Youth Advisory Group (YAG) shall perform the duties required of it under the Workforce Innovative and Opportunity Act (WIOA) and Communities In Schools (CIS), and other duties which may be delineated by statute or by the Board. The Board believes the efforts and activities of the recently “resurrected” YAG, matches perfectly with the goals of the Governor’s Tri-Agency Initiative a collaborative initiative designed to strategically align the efforts of Texas Workforce Commission, Texas Education Agency, and the Texas Higher Education Coordinating Board to work together on developing strong links between education and industry, with the goal of helping Texas grow in economic prosperity. By securing investments (both capital and human) from local business and education partnerships, our enhanced Youth initiatives not only aligns with the Tri-Agency Initiative but ensures that young men and women will reap the benefits far into the future via a sustainable, locally-supported, delivery model.

Furthermore, we believe that through our uniqueness as the only Communities In Schools affiliate *in the nation* that is embedded in an American Job Center, Texas Workforce Solution's network, we can address systemic issues (employment, training, childcare, etc.) to help students and their families overcome any barriers to success and self-sufficiency. In Spring 2021, the Board in partnership; with CIS, received a 2-year, \$111,000.00, Communities for Children (CFC) grant from the Chan Zuckerberg Initiative (CZI) and the Hogg Foundation for Mental Health. With this additional financial support, we believe we can address systemic inequities and support CIS Site Coordinators (SC) working to strengthen mental health and well-being, enhance academic performance and provide relief from the challenges of the pandemic for students and their families. Our primary goal was to expand by two (2) Site Coordinators on campuses or districts with the greatest need and facilitate expansion into those areas. The goal of such pioneering programs is to prepare young people, ages 14 to 24, with the fundamental skills needed to thrive in the 21st century world of school, work, and life. We believe through these type of community-driven initiative, we are able to forge partnerships with community organizations to expand access to programs, services, and opportunities that engage and empower the youth in the Golden Crescent. The project’s main objective is to maximize existing relationships between education, workforce, and industry partners to strategically align their collective resources to equip youth with the fundamental skills to succeed in education, their future employment, and provide them with opportunities to become engaged members of their communities.

As a result of these programs, the Board is able to leverage some of their federal funding allocations to serve any students identified as WIOA-eligible (ISY or OSY). Combined with the funding received from Chan Zuckerberg Initiative (CZI) Communities for Children (CFC) grant administered through and the Hogg Foundation, Texas Education Agency, participating ISD’s, and contributions from United Way, the Board's involvement has been instrumental (and beneficial) in keeping at-risk youth both in school and engaged in positive educational and social activities. This relationship provides the Board with direct access to youth and the opportunity to provide workforce-related guidance, such as career exploration, early exposure to targeted

industries and occupations (critically important to the HB 5 career endorsement mandate), programs of study/pathways, interviewing techniques, child labor laws, and other relevant and useful, workforce-related information.

Because these programs take a holistic approach to youth development using local entities these projects rely upon and benefits from locally-tailored combinations of: grant funds from local entities to increase degree attainment, address any locally identified gaps; support youth civic engagement; increase career education and awareness, and pre-employment and employ skill development. Another goal is sustainability planning and improving organizational and technical capacity to maintain the program beyond CZI financial support. Keeping youth in school to attain their degree and preparing them for making informed decisions about their post-secondary options, is paramount to a successful and thriving economic base. Job seekers are better prepared for entering the labor market if they have a HS diploma, besides the opportunity to increase their overall earning potential. Likewise, employers are provided a better-educated workforce, thereby increasing their revenue-capacity, and productivity as well.

The ~~LEAPS~~ CZI/CFC project and similar youth-centric initiatives, as well as other investments in education and training, symbolize the Board's commitment towards improving regional access for all participants to complete programs of study. The ability to further one's education by earning post-secondary credentials, industry-based certifications, or licensure and gain critical employability skills, results in our employers being better positioned to find and hire employees via an enhanced education and training pipeline.

G. Strategic Opportunities to Drive Local Implementation:

1. Increase engagement of target populations, including Opportunity Youth, Texans with disabilities, foster youth, and sex-trafficking victims.

Describe Board strategies that support engagement of sometimes underserved populations.

According to a recent study by the Aspen Institute, there are currently 4.6 million *Opportunity Youth* – defined as young people between the ages of 16 and 24 who are neither enrolled in school nor participating in the labor market – or about one in nine members of this age group in the United States.

However, the chances that a young person will be disconnected from school and work at some point between the ages of 16 and 24 are much higher, according to *Jobs For The Future*. Nearly 40 percent of young people between the ages of 16 and 24 are weakly attached or unattached to school and work at some point during that formative stretch of their young lives. Moreover, despite young people's aspirations to advance and secure family wage jobs, make connections in civic engagement, and improve their communities, once they have experienced disconnection from school and work, it's very unlikely they'll be able to meet these aspirations, as only 1 percent of youth who've been disconnected will ever earn an Associate's degree or higher,

compared to 36 percent of the general population. And the data is clear: a large majority of today's and the near future's family-supporting wage jobs will require some kind of training or credential beyond a high school degree.

To address this problem, we believe that the combination of the Board's Youth Advisory Group (YAG), Workforce Innovative and Opportunity Act (WIOA), and Communities In Schools (CIS) collective efforts, activities, and goals previously described (beginning on page 64), our strategies will effectively support increased engagement of this underserved population.

Regarding serving sex-trafficking victims, the Board acts in accordance with WD Letter 07-18 which provides local Boards with information, guidance, and resources on human trafficking and on the Boards' role in identifying and assisting human trafficking victims.

The Board ensures that staff members provide human trafficking victims with benefits and services that are similar to the benefits and services provided to other customers. The services:

- must consider the sensitive needs of human trafficking victims, in accordance with TWC policies, procedures, and case management processes; and
- must address the needs of customers who have issues such as limited English proficiency, a criminal record (for example, as a result of forced prostitution), limited résumés, or lack of official documentation.

The Board also ensures that foreign nationals who are victims of a severe form of human trafficking are eligible for services provided through Title I of the Workforce Innovation and Opportunity Act (WIOA), if they meet all applicable program eligibility requirements. Documentation can include the following:

- A letter of certification issued by the US Department of Health and Human Services (HHS), in compliance with 22 USC §7105(b)(1), to an individual who is 18 years old or older and whose circumstance meets the definition of "severe forms of trafficking in persons"
- A letter of eligibility issued by HHS to minors (that is, individuals younger than age 18) who are victims of trafficking

In accordance with WD Letter 07-18 Human Trafficking, the Board will ensure that staff members have access to the hotlines and available resources to provide services to human trafficking victims.

To better serve other potentially marginalized populations such as those mentioned (Texans with disabilities, foster youth, etc.) and any other target populations and in accordance with WIOA §134(c)(3)(E) and §680.600, the Board has in place an approved WIOA Policy that provides specific guidance regarding ensuring priority and increased engagement for these and **all** populations.

2. Improve efficiency and outcomes through data-driven decision-making and investments.

Describe Board strategies that support data-driven decision-making and investments.

The Board and Contractor share the same intentionality and high regard for innovation and a steadfast commitment to the use of data-driven analytics in their service delivery model. We make every effort to consciously apply that mindset to not only achieving or exceeding performance, but in all we collectively do.

We believe this shared data-driven culture, has demonstrated a history of successfully providing;

- services and activities to targeted populations (employers, job seekers, program participants, etc).
- performance outcomes (measures/targets),
- expenditure benchmarks, and
- contractual compliance, etc.

Other areas of the Board regularly reviews and utilizes data and analytical tools include;

- collaboration opportunities,
- participant flow,
- how customer needs will be identified and matched to appropriate services,
- internal monitoring systems,
- use and protection of personal information and data,
- customer satisfaction survey responses to improve services,
- outreach and recruitment of targeted populations,
- prior performance history,
- external Monitoring and Audit reports, and
- effectiveness of current performance/data analysis processes.

We feel our history of achieving and exceeding TWC-mandated performance is predicated upon operating responsive systems that embrace continuous improvement and are driven by constant assessment of capacity needs, informed decision making driven by technology, and implementation of systemic solutions. We believe that to achieve responsive systems, local management must be empowered to drive this process to ensure a high degree of coordination and engagement with the Board. This top-down commitment to continuous improvement driven at the local level and supported by ongoing coaching and mentoring from an engaged Executive Team both at the Board and Contractor level has allowed the Board to not currently be under any form of corrective action, technical assistance, or performance improvement plan, nor be placed under sanction.

The goal is that through the use of data, combined with accurate and timely reporting functions, we provide better comparative analytics and time series analysis, allowing for reduction in persistent and/or critical monitoring issues across all programs and managed systems. The Board

has established and relies upon key performance indicators (KPI's) a quantifiable measure of performance that provide targets and milestones to gauge progress and insights that improve organizational decision making. The vision of the Board has always been to improve efficiency and outcomes through data-driven decision-making and investments and be viewed as the standard of excellence, innovation, and integrity.

We look forward to working with TWC, TWIC, the Governor's Office, and the upcoming 88th Regular Session of the Texas Legislature to ensure a bright and prosperous future for our businesses and job seekers in the Golden Crescent and across Texas.
